NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for Special Legislation to provide:

1. That the provisions of Part XIX of the *Municipal Act*, R.S.O. 1980, c. 302 dealing with penalties and the enforcement of by-laws shall apply in lieu of certain statutory provisions in the City's special legislation authorizing penalty provisions in certain by-laws passed thereunder.

2. That the City's special legislation with respect to rooming houses, *The City of Toronto Act*, 1975, c. 116, s. 7 be amended:

(a) to delete the words "for gain" from the description of a dwelling which may be designated by by-law as a rooming house;

(b) to permit the City to pass by-laws to prohibit the use or rental of a rooming house in contravention of the *Fire Marshals Act*, the *Public Health Act* or *Building Code Act* and any regulation passed under these Acts.

3. That the City's special legislation with respect to ravines, *The City of Toronto Act*, 1971, c. 130 s. 2 as amended by S.O. 1974, c. 162, s. 1 be amended:

(a) to provide for a right of appeal to the Ontario Municipal Board where the City refuses its consent or neglects to make a decision within 45 days after the receipt by the City Clerk of the application for consent provided such appeal is made within 180 days from Coun-

cil's refusal or within 180 days after the expiration of the 45 day period;

(b) to provide for certain further statutory exemptions from the legislation;

(c) to permit the City to exercise some of the same powers with respect to ravine lands as it has under section 40 of the *Planning Act* dealing with site plan control, including the power to impose conditions and require agreements subject to a right of appeal to the Ontario Municipal Board;

(d) to delete the enforcement provision, with the intent that Part XIX of the *Municipal Act*, R.S.O. 1980, c. 302 respecting penalties and enforcement of by-laws, shall apply

Schedule 15

SCHEDULE OF BENEFITS

PREAMBLE**A. General**

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation (see Appendix A for a list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Claims for services which are not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation should not be submitted to the Plan. Such services may be charged directly to patients or others requesting them.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

12. Documentation: whenever a physician examines or treats a patient, an appropriate record of this service must be made and such record must be in keeping with section 29 of Regulation 448 of Revised Regulations of Ontario, 1980 under the Health Disciplines Act (see Appendix B).

13. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the Minister made it very clear that he is looking to the College and the Medical Schools to en-

PREAMBLE

sure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect:—

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered:—

- (a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.
- (b) In psychotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview review and in direct supervision.
- (c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.
- (d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

14. Charges for missed appointments are not benefits of O.H.I.P.

B. Terms and Definitions

Call or Visit: is the service by a physician to or on behalf of a patient for assessment and/or treatment.

1. Consultations:

- (a) A consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory and/or other data and submit his findings, opinions and recommendations in writing to the referring physician.
- (b) If a consultant is requested by a physician on duty in the emergency department to

PREAMBLE

- see a patient in consultation, the consultant may claim a consultation for this service. If the consultant is requested to perform this same service by a resident or intern, the consultant may claim a general or specific assessment according to his specialty.
- (c) For laboratory and procedural benefits connected with consultations, see listings of Laboratory Medicine and Diagnostic and Therapeutic Procedures.
 - (d) A consultation is not to be claimed as such when:
 - (i) The patient presents himself to a consultant's office without prior knowledge of the primary physician. The sending of a report to the primary physician under these circumstances does not justify a claim for a consultation.
 - (ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.
 - (e) A limited consultation may involve all of the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.
 - (f) A diagnostic radiology consultation applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night (5.00 p.m. to 7.00 a.m.), Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.
 - (g) A diagnostic pathology consultation applies when tissue slides are referred to a second pathologist for a written opinion. It includes secretarial or other assistance but does not apply when the tissue slides referred to above are used for comparison with tissue slides done in the consultant's facilities. When a diagnostic pathology consultation fee is claimed L821 may not also be claimed.
 - (h) A pathology consultation or repeat consultation applies when a pathologist is requested to examine a patient and provide a written opinion.
 - (i) A diagnostic nuclear medicine consultation applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion or when the nuclear medicine physician is required to make a special visit at night (5.00 p.m. to 7.00 a.m.), Saturday, Sunday or Holiday to consult on the advisability of performing a nuclear medicine procedure which eventually is not done. A consultation does not apply when procedures done elsewhere are used for comparison purposes with nuclear medicine studies made in the consultant's facilities.
 - (j) A nuclear medicine consultation or repeat consultation applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may be done in conjunction with a nuclear medicine study but if so, the lesser professional benefit (P_2) rather than the greater benefit (P_1) should be claimed in addition to the technical (T) benefit.
 - (k) Some nuclear medicine specialists have other specialist qualifications which allow

PREAMBLE

them to claim other consultation benefits (e.g., internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g., internal medicine) but would not be combined with a claim for such a consultation by the same consultant.

- (l) A prenatal consultation by a paediatrician applies when a physician considers a foetus of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a postnatal consultation on the infant.
- (m) OHIP benefits for consultations normally are limited to one consultation per year, per patient, by any one physician. However, if the same patient is referred to the same consultant a second time within the year with a clearly defined unrelated diagnosis, one additional consultation may be claimed per year.

2. **Repeat Consultation:** requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.

3. **General Assessment:** shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.*

OHIP benefits for general assessments normally are limited to one per year per patient by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional general assessment may be claimed per year. In the case of a patient who proceeds normally to hospital, the admitting physician may claim one additional general assessment per year provided 90 days have elapsed since the last general assessment rendered (anywhere) to that patient by the admitting physician. If the patient doesn't qualify for a general assessment by the admitting physician, he may claim a general re-assessment.

4. **General Re-Assessment:** shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.*

OHIP benefits for general re-assessments, except for hospital admission re-assessments, are limited to two per year, per patient, by any one physician.

5. **Specific Assessment:** shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis and/or exclude disease and/or assess function, an appropriate record, and advice to the patient.*

Physicians qualified in two specialities (EENT for example) may only claim for one visit, eg: a consultation (if referred) or a specific assessment (if non-referred), if both systems are

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

examined during the same visit. However, two consultations or two specific assessments, etc. may be claimed if both systems are examined, each on a separate visit.

OHIP benefits for specific assessments normally are limited to one per year, per patient, by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional specific assessment may be claimed per year.

6. Specific Re-Assessment: shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole.*

In the surgical specialties, anaesthesia and dermatology, a specific re-assessment applies when a repeat specific assessment is required and carried out on a patient within a year's time for the same condition and with the same diagnosis; it shall comprise the same services as a specific assessment except that the history need not include all of the detail already obtained in the original specific assessment. A specific re-assessment is not to be claimed for treating a minor problem or for visits required solely for assessing the response to a treatment of a previously diagnosed condition unless an additional clinical assessment is required and performed.

In the medical specialties, a specific re-assessment applies in the management and assessment of the progress of serious chronic disease. It is not to be claimed for treating a minor problem or for visits required solely for assessing the response to treatment of a previously diagnosed condition unless an additional clinical assessment is required and performed.

7. Intermediate Assessment: is a more extensive assessment than a minor assessment and shall comprise a history of the presenting complaint(s), enquiry concerning and examination of the affected part(s), region(s), or system(s) or emotional disorder as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*

8. Multiple Systems Assessment: shall comprise a detailed history and examination of more than one system, part or region, an appropriate record and advice to the patient.

9. Minor Assessment: is a brief assessment comprising the necessary history, examination of the affected part or region, an appropriate record and advice to the patient. It also applies to a subsequent visit solely for assessing the response to treatment of a previously diagnosed condition when the necessary examination and/or assessment reveals that no additional clinical assessment is required and none is performed.*

10. Psychotherapy: is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately establishes a professional relationship with a patient for the purposes of removing, modifying or retarding existing symptoms or attenuating or reversing disturbed patterns of behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed if a half hour or major part thereof has been spent by a physician in such treatment of the patient. Psychotherapy may not be claimed by more than one physician for the same patient at the same time.

Please note that the College of Physicians and Surgeons of Ontario has stated that "in or-

PREAMBLE

der to qualify for a psychotherapy claim, a minimum of twenty minutes must be spent with the patient. When psychotherapy extends beyond thirty minutes, the major part (16 minutes) of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after an hour of psychotherapy, the major part (16 minutes) of the next half hour must be spent to qualify for an additional half hour fee and so on." (Medical Review Committee Bulletin, Volume 3, Number 1.)

11. Counselling: as distinct from psychotherapy, counselling is that activity in which the physician engages in an educational dialogue with the patient(s) on an individual or group basis wherein the goal of the physician and patient(s) is to become aware of the patient(s) problems or situation and of modalities for prevention and/or treatment. Counselling is not intended for ongoing treatment or a substitute for a patient assessment, and it must be rendered personally by the attending physician.

Advice given during a visit for patient assessment and relative to that assessment (see definitions) is included in the assessment benefit and does not qualify for "counselling".

12. Genetic Counselling: includes interviewing the appropriate family members, the collection and assessment of adequate clinical and genetic data to make a diagnosis, construct a pedigree, and assess the risks to persons seeking advice. It includes imparting this information and the various alternatives to the appropriate family members in such a way that they can make informed decisions about dealing with the genetic problem.

13. Examinations of Well Persons:

(a) Age: (unless otherwise specified)

Newborn — up to 10 days of age.

Infant — up to 2 years

Child — up to and including 15 years

Adolescent — up to and including 17 years

Adult — 18 years or over.

(b) Newborn Care: is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits, and normally may not be claimed for the same patient by more than one physician.

When a well baby is transferred to another hospital (because of the mother's state of health, for example) claims for newborn care by a physician at each hospital may be appropriate.

(c) Low Birth Weight Care: is the care of a baby weighing less than 2.5 kilograms at birth.

(d) Well Baby Care: the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements and instructions to the parent(s) regarding health care.

(e) Annual Health or Annual Physical Examination (Including Primary and Secondary School Examinations): shall comprise all the elements of a general assessment as it pertains to an individual who presents and reveals no apparent physical or mental illness. O.H.I.P. benefits for any one physician are limited to one Annual Health Ex-

PREAMBLE

amination per patient per year after the second birthdate. To qualify for O.H.I.P. benefits, an Annual Health Examination normally must be requested by the patient rather than a third party. Under Regulation 452 of Revised Regulations of Ontario, 1980 made under the Health Insurance Act,

examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.

Other Terms, Definitions and Guidelines

14. **Coding:** This schedule lists a code number opposite most items. Items which are not coded are identified either as U.V.C. or N.C.

U.V.C. — use visit codes applicable to the pertinent service and specialty.

N.C. — no code applicable. This service is not a benefit (N.A.B.) of O.H.I.P., and may be charged directly to patients.

For the surgery portion of this schedule, physicians submitting claims in coded form should add to the code numbers, the suffix A if they perform the procedure, the suffix B if they have assisted at the surgery or the suffix C if they have administered the anaesthetic.

For those diagnostic and/or therapeutic procedures which have the technical and professional components listed separately, but under the same code, the suffix A should be added to the code numbers when both components are being claimed, the suffix B when only the technical component is being claimed, or the suffix C when only the professional component is being claimed.

Where separate codes are listed for the technical or the professional components, the suffix A should be used.

For diagnostic radiology, only one code is listed for each service, even though some of these services may be provided by non-certified radiologists. The code for services rendered by non-certified radiologists should be obtained by increasing the first digit in the listed codes by 5. Thus, for example, the code for the service listed as X001 but rendered by a non-certified radiologist would be X501 plus the appropriate suffix.

15. **General Listings:** include the basic listings for consultations, assessments and other visits wherever they are rendered, except for non-emergency services to hospital or long-term care institution in-patients and for care rendered by a physician on duty in an emergency department. These latter services are listed separately in the Schedule.

A visit rendered to a patient in a rest home, lodge, detoxification centre, half-way house, or other institution not covered elsewhere in the Schedule, should be claimed under the General Listings.

16. **Non-Emergency Hospital In-Patient Services:** include the listings for consultations and other visits to registered bed patients.

(a) The general assessment, general re-assessment, specific assessment or specific re-as-

PREAMBLE

assessment rendered in conjunction with a patient's admission to hospital is considered to be the hospital "admission assessment". Such assessments may not be claimed more than once during a hospital admission even if a patient's care subsequently is transferred to another physician. Moreover, such assessments may not be claimed by a consultant who also is claiming a consultation in conjunction with the patient's admission to hospital. Such consultation by the admitting physician serves as the admission history and examination.

- (b) Subsequent routine visits should be claimed as "subsequent visits (minor assessments)". Claims for daily hospital visits must not be made unless a physician actually visits the patient each day. Prior to the weekly and monthly limitations that apply after a patient has been in hospital for 5 weeks (6 weeks for paediatricians), payments for hospital visits generally are limited to one per patient per day. For acute illnesses or exacerbation of original illness requiring additional visits before or after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.
- (c) When a patient in hospital is referred by one physician to another, the second physician will not be limited by the Subsequent Hospital Visit formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to five weeks just as if the patient was being attended to in hospital for the first time. However, if the patient is transferred to the care of another physician, the Subsequent Hospital Visit formula would apply just as it would if only one physician was involved in the care.
- (d) When a physician already is in the hospital and is asked to assess one of his own in-patients on a non-emergent or emergent basis, the subsequent hospital visit listings apply. However, if he is asked to assess another physician's patient on an emergent basis, the General Listings should be used.

17. Emergency Department — Physician on Duty Services: include the listings for minor and multiple systems assessment and the specific premiums applicable to the services rendered by the physician on duty. A physician on duty in the Emergency Department regardless of his specialty should submit claims under these listings. A physician who is not on duty in the Emergency Department should use the General Listings when seeing patients in the emergency or out-patient departments. See Appendix C for further guidelines to claiming for services rendered in the Emergency Department.

18. Long-Term Institutional Care: includes the listings for consultations, assessments and other visits to patients in chronic care hospitals, convalescent hospitals, nursing homes and other institutions in which such patients are covered by extended care legislation.

Admission assessments to long term care institutions are classified as —

Type 1 — applies when the admitting physician has not performed a consultation, general assessment or general re-assessment prior to admission and when he carries out a general assessment (on admission) and provides a report for the medical record.

Type 2 — applies when the admitting physician has performed a consultation, general assessment or general re-assessment prior to admission, makes an initial visit and records an admission note describing the condition of the patient following admission.

When a physician already is in the institution and is asked to assess one of his own in-patients on a non-emergent or an emergent basis, the subsequent visit listings apply. However, if

PREAMBLE

he is asked to assess another physician's patient on an emergency basis, the General Listings should be used.

19. Visit for Procedure: when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions.) When procedures are carried out in the office, emergency or outpatient department on an elective basis, a special visit should not be claimed in addition to the procedural fee.

When procedure(s) are carried out by a physician's employee(s) under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant in the employ of the physician. "Procedures" in this context do not include such services as assessments, consultations, psychotherapy, counselling, etc. Direct supervision requires that during the procedure the physician be physically present in the office or clinic at which the service is rendered.** While this does not preclude the physician from being otherwise occupied he should be in personal attendance on enough occasions to ensure that procedures are being performed competently and he must at all times be available immediately to approve, modify or otherwise intervene in a procedure as required in the best interests of the patient.

For physiotherapy procedures performed under direct physician's supervision as detailed above, see Code G467 on Page 104.

20. Premiums:

(a) Special visit fees chargeable in addition to benefits for services listed under consultations and visits, critical care and injections or infusions.

- (i) A special visit is one which is initiated by the patient or his representative which requires a physician to travel from one location to another to see a patient(s). That is, when the physician is not already in the office, hospital, institution, patient's home, etc. and is called to make a special trip there to attend a patient, a "special visit" premium may be claimed. The premium(s) for a special visit to the office only applies outside of normal office hours but does apply whether or not the office is in the physician's home.
- (ii) The special visit premiums apply only to emergent or non-elective calls and do not apply to non-referred or transferred obstetrics. The premiums do not apply to visits on regular rounds, and admission assessments of patients who have been admitted to hospital, etc. on an elective basis do not qualify as "special visits", regardless of the time performed.
- (iii) If an institution has arranged to have quarters in the same or in a proximal building in order that a physician will be available to make visits to the institution, particularly at night, these are not considered to be "special visits" to the institution.

When services are rendered on an emergency basis at a site other than listed in this schedule (e.g. roadside, ski slope, etc), the special visit premiums are applicable.

**Some procedures may not require the physical presence of a physician for adequate supervision. Exceptions to this requirement of direct supervision may be made upon recommendation of the Ontario Medical Association and the College of Physicians and Surgeons of Ontario.

PREAMBLE

If a physician is called to pronounce a patient dead, a minor assessment may be claimed along with the appropriate surcharge for the special visit.

- (iv) An emergency call with sacrifice of office hours may be claimed in a situation where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately at the sacrifice of regular office hours.
- (v) A special visit at night or on a Saturday, Sunday or holiday may be claimed when non-elective or emergent calls are made between the hours of 5.00 pm and 7:00 am or are received and made on Saturdays, Sundays and Holidays. "Holidays" are defined for the purpose of this schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Dominion Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. If any of these holidays fall on a Saturday or Sunday, at the physician's discretion either the Friday before or the Monday following will be recognized as the holiday.
- (vi) Only one special visit premium (daytime; sacrifice of office hours; or nights, Saturdays, Sundays and Holidays) may be claimed for the same patient, same visit, and do not apply to non-referred or transferred obstetrics.
- (vii) The Home Visit premiums apply to emergent or non-elective assessments which are initiated by a call from the patient or his representative. It is recognized, however, that a home visit occasionally may be required because of the patient's medical condition even though the physician has not been called specifically for that visit. For such "elective home visits", the daytime special visit premium B990 is applicable in addition to the appropriate assessment under the General Listings. The Special Visit premiums applicable to nights, Saturdays, Sundays, Holidays or sacrifice of office hours, however, are not appropriate, regardless of the time of the visit.
- (viii) Normally, the "additional patient" premiums are not applicable unless the additional patient himself qualifies for a special visit. Patients who drop in to the office or Emergency Department while the physician is there for reasons other than rendering a special visit at that time do not qualify for any of the special visit premiums. However, extra patients during a home visit or those who drop in to the office or Emergency Department while the physician is there rendering a special visit to another patient also qualify for the "additional patient" premiums if an assessment is rendered.

Extra in-patients seen during a special visit to a hospital or other institution do not qualify for the "additional patient" premiums unless the physician has been asked specifically to see these extra patients as well. (See also paragraph 16(d) above.)

Patients seen during "office hours" held at night or on Saturdays, Sundays or Holidays do not qualify for any of the special visit premiums.

Special Visit Benefits:—(applicable in addition to benefits for services listed under "Consultations and Visits" and "Critical Care") K992, C992, K993, C993 also are applicable to assistant and/or anaesthetist at emergency surgery.

- (ix) Daytime (Monday to Friday) special visit to Emergency Department or O.P.D.
 K990 First patient assessed add \$10.60
 K991 For each additional patient requiring a special visit and assessed during same special visit, add 20% to the assessment fee.

PREAMBLE

And also add to Critical Care or injection or infusion fees chargeable to additional patients (excluding Respiratory Care and Neonatal Intensive Care).
- (xii) Special visit to office —
 The above benefits apply, but the prefix "A" should be substituted for the prefix "K" in the code (e.g. A990 instead of K990).
- (xiii) Special visit to patient's home —
 The above benefits apply, but the prefix "B" should be substituted for the prefix "K" in the code (e.g. B992 instead of K992).

 The above benefits apply, but the prefix "C" should be substituted for the prefix "K" in the code (e.g. C992 instead of K992).

- (xvi) Special visit to any setting not listed above, or emergency services at the roadside, ski slope, etc.
 The above benefits apply, but the prefix "Q" should be substituted for the prefix "K" in the code (e.g. Q994 instead of K994).
- (xvii) Non Elective Surgical Procedures or Clinical Procedures Associated with Diagnostic Radiological Examination: — when such procedures including Caesarean sections, the surgical management of ectopic pregnancies, fractures or dislocations or **major invasive procedures contained in the list of Diagnostic and Therapeutic Procedures or elective procedures which because of intervening emergency procedure(s) commence after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). For all other obstetrical procedures e.g. deliveries occurring on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). When the foregoing procedures commence after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (E410).
- These premiums are not chargeable in addition to the obstetrical procedural fee(s) if labour is induced by medical and/or surgical means by the same physician. However, a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

PREAMBLE

These premiums are not chargeable (during or after a "shift") by casualty officers or other physicians who have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.

****Major Invasive Procedures are considered to be the following:**

E409 or E410 may not be claimed for procedures which mainly involve the interpretation of test results and are not applicable to assessments or consultations. Neither are they applicable to physicians on duty in the emergency department nor to procedures listed in the Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound sections of the Schedule.

(xviii) Non-elective Nuclear Medicine, Diagnostic Radiology, Laboratory Medicine or Diagnostic Ultrasound Examinations.

C109 For special visits, evening (5:00 p.m. to midnight) or before midnight, Saturdays, Sundays or Holidays to perform examinations listed in the Nuclear Medicine, Diagnostic Radiology, Laboratory Medicine or Diagnostic Ultrasound sections of the Schedule, a premium of \$21.25 may be added to the benefit for the first examination performed on any one patient or may be claimed alone if it is decided that the procedure is not medically indicated and a consultation is not rendered.

C110 For such special visits commencing between midnight and 7:00 a.m., the applicable premium is \$31.90.

(xix) Assistants' services —

E400B For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for assistant units (basic and time) is increased by 30%.

E401B For cases commencing after midnight and before 7:00 a.m., the total benefit for assistant units is increased by 50%.

E401C For cases commencing after midnight and before 7:00 a.m., the total benefit for anaesthetic units is increased by 50%.

(b) Special Care Unit (e.g. I.C.U. or C.C.U.) —

C101 For each patient seen on visit to I.C.U. or C.C.U. (excluding supportive care), add \$4.60 to charges for all such visits.

Note: Where visit is not chargeable,

e.g. post operative care by surgeon, claim only C101

PREAMBLE

21. **Detention:** benefits may be applicable for detention when under very exceptional circumstances a physician is required to spend considerable extra time with a patient. Such extra time must be spent in active treatment of the patient, and it must be to the exclusion of all other work.

Claims for detention must be substantiated by an explanation on the claim card or in an accompanying letter, and should be made on an "I.C." basis according to the following guidelines:

After twenty minutes if the physician spends more than this amount of time providing a minor or intermediate assessment or subsequent hospital visit;

After forty minutes if the physician spends more than this amount of time providing a specific or general re-assessment or multiple systems assessment or certification of mental illness;

After one hour if the physician spends more than this amount of time providing a consultation, limited consultation, repeat consultation, prenatal consultation, specific or general assessment.

Detention is not meant to apply to procedures nor to obstetrical care and does not include time waiting for X-rays, lab reports, the operating room or for the patient to arrive for assessment or treatment.

K001 Detention, per quarter hour or part thereof\$12.75

K101 Detention, while in attendance with patient(s)
in ambulance, per quarter hour or part thereof\$21.25

Note: K101 is not applicable to attendance in a vehicle other than an Ambulance.

22. **Independent Consideration — "I.C.":** independent consideration will be given by O.H.I.P. for those items in the Schedule of Benefits which are listed as I.C.. Claims rendered under this heading must include a specific charge along with a detailed explanation of that charge. Where pertinent, an operative report is very helpful in rendering independent consideration. It also is helpful if I.C. claims include a comparison of the scope and difficulty of the procedure with other specific procedures listed in the Schedule.

23. Transferral and Referral:

(a) A referral takes place when one physician requests for his patient the services of another. The services of the latter may consist of:

(i) an opinion (i.e. a consultation)

(ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.)

Note: In such cases the referring physician continues to treat the case himself.

(iii) treatment (surgical or medical).

The referring physician's O.H.I.P. registration number must be included on the claim submission.

(b) A transferral, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another in the same field or specialty (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). The physician to whom the patient is transferred should be regarded as substituting for the other physician and is not entitled to claim for a consultation. Physicians who

PREAMBLE

are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. Where the care of the patient involves a benefit containing several components such as surgery the physicians may consider the surgical benefit a team benefit and decide among themselves how each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other providing hospital visits to registered bed patients in active treatment hospitals, e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

24. Most Responsible Physician: is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim for a consultation only.

25. Concurrent Care: when the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant, the family physician may claim on a per visit basis. The consultant also may claim on a per visit basis, not to exceed four such claims during the first week of **concurrent care** and not to exceed two such claims each week thereafter while the patient's condition remains serious — this arrangement being agreeable to both physicians.

26. Multidisciplinary Care: applies when the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate claim on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in the Schedule.

27. Supportive Care: is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician may claim for this care on a per visit basis, not to exceed four such claims during the first week of **supportive care** and not to exceed two such claims each week thereafter. If medical complications develop or are present in the post-operative period which require active management by the referring physician, claims for hospital medical care should be rendered, not supportive post-operative care.

28. Specialist: a specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from the Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.

A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule

29. Differential Benefits:

- (a) Where only one benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.

PREAMBLE

(b) Consultation and visit benefit listings under the heading of Family Practice and Practice in general may be claimed by other branches of medicine if the listings do not appear elsewhere in the Schedule.

(c) Specialists in paediatrics who practice allergy may claim specialist rates for their allergy services regardless of the age of their patients.

30. Referring Physician's Services:

(a) For the services rendered prior to an operation, the referring physician should claim on a "fee-for-service basis", for example:

(i) Home, Office or Hospital Visits as rendered.

(ii) In addition to (i) above, in acute cases, benefits may be claimed for detention if applicable and appropriate (refer to paragraph 21, above).

(b) (i) For services rendered as an assistant during the operation, the referring physician should claim in accordance with paragraph 32, below.

(ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should claim a hospital visit for this service.

(c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care as outlined in the Schedule.

31. Pre-dental Assessment:

A physician, regardless of specialty, who is required to examine a patient in preparation for dental surgery under general anaesthesia may claim \$18.40 when he has seen the patient in the previous twelve months for a general assessment or \$27.60 if he has not seen the patient within the previous twelve months for a general assessment. If the examining physician also administers the anaesthetic only \$18.40 may be claimed in addition to the anaesthetic benefit, for the history and examination required by the hospital on admission (this is an exception to paragraph 33(a)).

32. Assistants' Services:

(a) Time units are computed by allowing one unit (\$6.52) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. Time units for assistants' services for periods in excess of two hours per case are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If claims are being made in coded form (see Preamble, part B, paragraph 14), the suffix B should be added to the code for the procedure.

(b) The basic units should be listed separately from the time units on the claim card. Benefits for assistants' services are determined by multiplying the listed basic units and the time units by \$6.52. For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for assistant units (basic and time) is increased by 30% (E400B). For cases commencing after midnight and before 7:00 a.m., the total benefit for assistant units is increased by 50% (E401B).

(c) When multiple or bilateral surgical procedures are done during the same anaesthetic,

PREAMBLE

the assistant's benefits shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive full assistant's benefits for each procedure.

- (d) In surgical procedures requiring more than one assistant, benefits for the second assistant shall be computed on the same basis as for the first assistant.
- (e) When a surgeon requires an assistant at a procedure for which no assistant's units are listed, the assistant may calculate the total benefits applicable by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by \$6.52. (See also (f) below.)
- (f) When assistants at surgery claim for procedures for which no assistants' units have actually been listed in the Schedule, the assistants should support their claims with letters of explanation as to why their attendance was required.
- (g) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the benefits shall be based upon 3 units plus time (E003B).
- (h) When an anaesthetic has begun and the operation is cancelled prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units (E006B). If the operation is cancelled after surgery has commenced, the procedural basic unit plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hospital visit only may be claimed.

33. Anaesthetists' Services:

- (a) Benefits for anaesthetists' services are for all types of anaesthesia. The rates listed are for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used. If an anaesthetist is asked by a physician to see a registered bed patient in consultation more than 36 hours prior to the administration of an anaesthetic, he may claim for a consultation as well as for rendering the anaesthetic. (This consultation is not a substitute for the pre-anaesthetic evaluation.) If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia, he may claim a subsequent hospital visit for this service. When an anaesthetic has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (E006C). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply.
- (b) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph 33(k, l,) below).
- (c) Except during maintenance of continuous conduction anaesthesia (G247 pg 100,

PREAMBLE

P015 pg 109), time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours). Following the first two hours of anaesthesia, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).

- (d) Time units and listed basic units should be indicated separately on the claim card. Benefits for anaesthetists' services are determined by multiplying the basic and the time units by \$7.37 for certified anaesthetists and \$6.80 for non-certified anaesthetists. For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for anaesthetic units (basic and time) is increased by 30% (E400C). For cases commencing after midnight and before 7:00 a.m., the total benefit for anaesthetic units is increased by 50% (E401C).

If claims are being made in coded form (see Preamble, part B, paragraph 14) the suffix C should be added to the code for the procedure.

- (e) In special cases where the anaesthetic services of more than one anaesthetist are deemed necessary in the interest of the patient the benefits shall be increased by 50% of that computed for the procedure; each anaesthetist to be entitled to one half of the total benefit.
- (f) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefits shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to receive full anaesthetic benefits for each procedure.
- (g) In procedures where no units are listed or with I.C., the basic units will be based upon those listed for a comparable procedure considering region and modifying conditions or techniques.
- (h) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anaesthetic, the anaesthetic "Basic" will be 28 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types may be claimed separately under the appropriate headings.
- (i) An additional 10 units may be claimed when, in association with anaesthesia, "controlled hypotension" is carried out using any technique to deliberately lower and maintain the mean blood pressure at least 25% below the range or normal for that patient. The extra 10 units may be claimed under code E004C.
- (j) When unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.
- (k) For detention not associated with anaesthesia detention rates and criteria apply (see paragraph 21 above).

PREAMBLE

- (l) When the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and when the anaesthetist is in constant attendance the benefits shall be based upon 3 units plus time. If claims are coded, the code is **E003C**.
- (m) No additional claim should be made for introducing a catheter for continuous conduction anaesthesia, i.e. above the basic of 5 units plus maintenance units to a maximum of 6 units plus the number of time units required for the obstetrical delivery.
- (n) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only. However, when a physician administers a pudendal, femoral, intercostal, sciatic, ilioinguinal or iliohypogastric block in addition to performing a procedure, he may charge \$7.10 (G224) in addition to the fee for the procedure.
- (o) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code **E002C**.
- (p) When one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should claim the appropriate basic units plus time units and the second anaesthetist may claim for time units only. The second anaesthetist should use code **E005C** for such time units except in the case of continuous conduction anaesthesia for which code G247 or code P015 (plus E100C pertain (see also paragraphs 33(c) and 33(n), above), **E005C** qualifies for the surcharge **E400C** or **E401C** only if the case originally started within the time stated under paragraph 33(e) above. Each anaesthetist should state on his claim card which part of the anaesthetic is being claimed and the time begun and completed.
- (q) General anaesthesia for the purposes of this Schedule includes all forms of anaesthesia except local infiltration.

PREAMBLE**APPENDIX C****"EMERGENCY DEPARTMENT" CLAIMS****PHYSICIAN ON DUTY**

The listings under the heading "Emergency Department—Physician on Duty" are meant to apply only to those circumstances wherein either casualty officers or other physicians **have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.**

When the Physician on Duty is required or elects to remain at the hospital, the special call surcharge will not apply. Use the "Emergency Department—Physician on Duty" listings for all physicians regardless of specialty.

When a 'casualty officer' is required to make a special visit to the Emergency Department prior to or after his regular arranged designated period of time on duty, he may claim the appropriate benefit under the General Listings plus the applicable special visit premium for the first patient assessed; all subsequent patients assessed during this visit to the hospital should be claimed under the Emergency Department—Physician on Duty listings.

When a physician is on duty in the Emergency Department, sees a patient and admits the patient to hospital, this physician may claim a minor or multiple systems assessment depending upon the service initially provided. Either the patient's attending physician or the emergency department physician (but not both) may render and claim the hospital "admission assessment". If the emergency department physician instead of the attending physician provides the admission general assessment, he may claim a general re-assessment (C004) as well as the initial assessment provided that both services are rendered separately.

SPECIAL VISIT TO EMERGENCY OR O.P.D.**Consultation**

1. Consultation, patient not admitted:
The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) may be claimed.
2. Consultation, patient admitted:
 - (a) The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) followed by hospital visits (if rendered) may be claimed. However, if the consultant also is the "most responsible physician", he may not also claim a hospital in-patient consultation, repeat consultation, general or specific assessment, general or specific reassessment since the initial consultation rendered in the emergency department serves as the admission assessment.
 - (b) If the consultant is not also the most responsible physician, the latter may claim the appropriate admission assessment.

PREAMBLE

Assessment:

1. **Assessment, patient not admitted —**
The benefit for the assessment (or re-assessment) plus the appropriate special visit surcharge (K99-) may be claimed.
2. **General/specific assessment plus patient admission —**
The benefit for the general or specific assessment plus the appropriate special visit surcharge (K99-) followed by hospital visits may be claimed. However, the admitting physician may not also claim a hospital in-patient general/specific assessment or reassessment since the initial general/specific assessment rendered in the emergency department serves as the admission.
3. **Minor/intermediate assessment plus patient admission —**
The benefit for the minor or intermediate assessment plus the appropriate special visit surcharge (K99-) may be claimed. In addition, the admitting physician may claim for a hospital in-patient general or specific reassessment if rendered.

Procedure:

Except for procedures for which the listed benefits specifically include the associated consultation or other assessment, claims may be made for both the procedure and the assessment.

Note:

If a physician has an office in the hospital and is called to assess a patient in the Emergency Department or O.P.D., the special visit premiums do not apply.

PREAMBLE

APPENDIX D

1. Surgery to alleviate significant physical symptoms or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under The Ontario Health Insurance Plan. Surgery solely to alter or restore appearance is not a benefit of OHIP except under the circumstances as listed in the following policy.
2. Emotional, psychological or psychiatric grounds are not considered sufficient reason for OHIP coverage of surgery for alteration of appearance except under exceptional circumstances. On request of the attending physician, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, *and if the surgery is*
 - recommended by a Mental Health Facility (as designated by The Mental Hospitals Act) or equivalent, or
 - recommended by a Correctional Institution, or
 - essential in order to obtain employment as documented by the attending physician *and* either by a Canada Manpower Employment Centre or by an employer with regard to a specific job, or
 - performed on a patient who is less than 18 years of age and the defect is in area of the body which normally and usually would not be clothed.
3. In establishing this policy, it has been recognized that
 - peer acceptance in our society often is influenced disproportionately by the facies,
 - children are especially susceptible to emotional trauma caused by physical appearances,
 - some procedures traditionally have been accepted as benefits of Health Insurance Plans in spite of the obvious cosmetic nature of these procedures.
4. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of OHIP.
5. Within the context of this policy, the word "disease" does not include the normal sequelae of aging. Surgery to alter changes in appearance caused by aging is not a benefit of OHIP.
6. Within the context of this policy, the word "trauma" includes trauma due to treatment such as surgery, radiation, etc.
7. The phrase "reasonable period of convalescence" admittedly is imprecise, but it does not seem reasonable to set a definite time interval of convalescence following each procedure. Independent consideration will be given to the questionable cases.
8. Authorization from OHIP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under OHIP policy.

PREAMBLE

Surface Pathology

1. Trauma Scars

(a) Neck or Face

- Includes ears and non-hair bearing areas of the scalp.
- Repair of all such scars is a benefit of OHIP.
- Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc. Rhytidectomy procedures to remove scar prominence, however, are not a benefit of OHIP.
- OHIP authorization for repair of such scars is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedure codes are used.

(b) Scars in other Anatomical Areas

- Repair of scars which interfere with function or which are significantly symptomatic (pain, local irritation, etc.) is a benefit of OHIP.
- Scars with no significant symptoms or functional interference
 - (i) Repair is a benefit if such repair is part of a pre-planned post-traumatic (including post-surgical) staged process. OHIP notification must be included as part of the planning process.
 - (ii) Other post-traumatic scar revision is not a benefit of OHIP.
- OHIP authorization is required for all scar repair procedures in areas other than the face or neck.

2. Keloids

(a) Head or Neck

- The repair of all such keloids is a benefit of OHIP.
- Repair procedures may include excision and/or injection.
- Although no pre-authorization is needed, claims for excision of keloids are assessed manually to ensure that the most appropriate code is used.

(b) Excision of keloids in other areas

- Not a benefit of OHIP unless significantly symptomatic or there is functional impairment.
- OHIP authorization is required.

3. Tattoos

(a) Face or Neck

- Excision or destruction of all such tattoos is a benefit of OHIP.
- Authorization is not required but adjudication of repair procedures will be identical to that for scars in these areas.

(b) Other Anatomical Areas

- Excision or destruction of concentration camp or P.O.W. tattoos is a benefit of OHIP. Otherwise, normally not a benefit of OHIP.

PREAMBLE

4. Benign lesions such as naevi, keratoses, spider naevi, papillomata, neurofibromata
 - (a) Face or Neck
 - Excision or destruction of these lesions is a benefit of OHIP.
 - Authorization is not required.
 - (b) Other Anatomical Areas
 - Normally not a benefit of OHIP if removed for alteration of appearance, only, rather than for medical necessity or because of clinical suspicion or evidence of malignancy.
 - Removal of very large lesions in patients less than 18 years of age is a benefit of OHIP.
 - Authorization is not required but a statement of the reason for removal must accompany the claim.
5. Hair Loss
 - (a) Head or Neck
 - (i) Patients less than 18 years of age
 - Repair is a benefit for non-hereditary etiologies.
 - Authorization is not required. However, if it is possible that a planned staged procedure will extend beyond the age limit, pre-authorization should be obtained, since it will be necessary after the 18th birthday.
 - (ii) Post-traumatic
 - Repair to the area of traumatic hair loss is a benefit of OHIP only if carried out within a reasonable period of convalescence.
 - OHIP authorization is required.
 - (iii) Other Etiology
 - Not a benefit of OHIP.
 - (iv) Usual repair procedures may include skin shifts or flaps, skin grafts, or hair plugs.
 - (b) Other Anatomical Areas
 - Not a benefit of OHIP.
6. Epilation of Hair
 - (a) Face
 - This procedure is a benefit of OHIP only for those patients with documented endocrine abnormality or drug-induced hirsutism.
 - (b) Other Anatomical Areas
 - Not a benefit of OHIP.
 - (c) — OHIP authorization is required.

PREAMBLE

7. Redundant Skin

- (a) Excision of redundant skin for elimination of wrinkles, etc. is not a benefit of OHIP.
- (b) Blepharoplasty is not a benefit of OHIP unless there is documented evidence of medical necessity such as visual field defect caused by the redundant eyelid skin.
- (c) OHIP authorization is required.

Sub-Surface Pathology

1. Congenital deformities

(a) Head or Neck

— Repair is a benefit of OHIP except for:

— surgery to revise or remove features which are familial in nature.

— surgery to correct "outstanding ears" in patients who are eighteen years of age or over.

— Authorization is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedural codes are used.

(b) Other Anatomical Areas

— Normally not a benefit of OHIP if surgery is for alteration of appearance only.

2. Post-Traumatic Deformities

— Reconstructive procedures are a benefit at the acute stage; within a reasonable period of convalescence; or if part of a pre-planned staged process of repair.

— Repair of procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.

— OHIP authorization is required for repairs beyond the acute stage.

3. Deformities resulting from local disease

(such as loss or distortion of bone, muscle, connective tissue, adipose tissue, etc.)

(a) Head or Neck

— Reconstructive procedures for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence; or if part of a planned staged process of repair initiated during one of these periods.

— Repair procedures normally could include tissue grafts, flaps or shifts, bone revision, prosthesis insertion, etc.

— Face lifts, modified face lifts, brow lifts, etc. are not a benefit of the Plan if skin, only, is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of OHIP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.

— OHIP authorization is required for repair of deformities resulting from local disease.

PREAMBLE

(b) Other Anatomical Areas

— Not a benefit of OHIP if the correction is for appearance, only.

4. Breast Surgery

(a) Augmentation Mammoplasty

— This procedure is a benefit of OHIP unilaterally or bilaterally for a female patient with breast aplasia.

— It is an OHIP benefit unilaterally for a female patient with a severely hypoplastic breast when the other breast is not also hypoplastic.

— A “balancing” augmentation mammoplasty may be allowed on an independent consideration basis for correction of unilateral hypoplasia when performed in association with approved contralateral reduction mammoplasty.

— The correct code for the repair procedure is R112.

— OHIP authorization is required.

(b) Post-Mastectomy Reconstruction

— Unilateral or bilateral breast reconstruction is a benefit of OHIP when the procedure is subsequent to, as listed in the Schedule of Benefits, total or partial mastectomy (including wedge resection) or prophylactic mastectomy.

— Authorization is not required but all claims are manually assessed to determine the benefit appropriate to the procedure rendered.

(c) Reduction Mammoplasty

— Reduction Mammoplasty is a benefit for female patients only, where there is significant associated symptomatology such as intertrigo, neck or back pain or shoulder grooving. Ptosis and/or size are not sufficient grounds for OHIP coverage of reduction mammoplasty

— Unilateral Reduction Mammoplasty may be a benefit of the Plan if there is gross disproportion present, or in association with approved unilateral augmentation mammoplasty or post mastectomy reconstruction of the contralateral breast.

— OHIP authorization is required.

(d) Male Mastectomy

— This procedure is a benefit of the Plan.

— The appropriate code for the procedure is R115 or R116.

— Authorization is not required.

(e) Accessory breasts or accessory nipples

— Excision of such accessory tissue is a benefit of the Plan.

— The appropriate code should be used from the Schedule listings under Skin and Subcutaneous tissue.

— Authorization is not required.

PREAMBLE

5. Excision of excess fatty tissue

- This is a benefit of the Plan only if there is significant associated symptomatology such as intertrigo, pain or excoriations.
- When performed for alteration of appearance, the removal of redundant skin and fat, from the abdomen, extremities, etc. is not a benefit of the Plan.
- OHIP authorization is required.

Sex-Reassignment Surgery

- (1) Sex-reassignment surgical procedures are a benefit of OHIP only if they are performed on patients who have completed the Gender Identity Clinic program operated by the Clarke Institute of Psychiatry in Toronto. Moreover, claims are accepted for payment only for those patients for whom the Clinic has recommended that surgery take place. This surgery need not take place in Toronto or even in Ontario. Surgery recommended by the Clinic which takes place outside the Province of Ontario may be approved for payment at rates in accordance with the current OHIP Schedule of Benefits.
- (2) Within the foregoing guidelines, reconstruction of genitalia and mastectomy are benefits of the Plan. However, since the hormonal treatments associated with sex-reassignment themselves give rise to breast enlargement, augmentation mammoplasty or breast reconstruction in a male to female conversion normally would not be a benefit of OHIP, in keeping with the previously outlined policy regarding breast surgery in females.
- (3) OHIP authorization is required.

Complications and/or Revisions

- (1) The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of the Plan whether or not the original surgery was covered by OHIP. This includes complications resulting from trans-sexual surgery (such as breakdown of the artificial vaginal wall). No authorization is required.
- (2) Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of the Plan if the original surgery was a benefit *and* if the revision either is part of a pre-planned staged process or occurs within a reasonable period of convalescence. Correction of the effects on appearance which are due to complications, is a benefit of the Plan if it is carried out within a reasonable period of convalescence. OHIP authorization is required only if the original surgical procedure, if it had been carried out at the time of the proposed revision, would have required such authorization. For example, authorization would not be required for revision in a 16-year-old of a repaired congenital ear deformity. However, if the child is 18 years or older at the time of the revision, authorization would be required.

NUCLEAR MEDICINE — IN VIVO

Column T — is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P₁ — is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. The physician must be present for supervision of the procedure to the extent that he or she may intervene personally, if required.

Column P₂ — is the professional benefit for interpretation of results and provision of a written report. If the physician is not present or if any visit is claimed in conjunction with that Nuclear Medicine procedure, the lesser professional benefit (P₂) should be claimed.

Notes: (1) The total benefit is arrived at by adding T plus P₁ (first code listed, e.g. Z006) or by adding T plus P₂ (second code listed, e.g. Z925).

When coding the total benefit use suffix A

When coding the technical portion only use suffix B

When coding the professional portion only use suffix C.

(2) If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit. Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit.

For services for which this additional 30% is appropriate the correct code prefix is Y instead of Z. For example for Arteriography plus data manipulation, the appropriate codes are Y006/Y925 instead of Z006/Z925.

The benefits for cardiac wall motion studies and calculation of ventricular ejection fraction (Z010 and Z012) already include an allowance for data manipulation and no additional benefit may be claimed.

(3) If examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P₁ and P₂) is to be reduced by 50% (use codes Z036/Z957, Z041/Z935, Z080/Z990 respectively).

(4) Repeat studies on the same day may be claimed only after exercise or drug intervention.

(5) The phrase "nuclear medicine specialist" should be interpreted as "nuclear medicine physician", since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.

(6) See also Preamble, part B, paragraph 1(i), 1(j) and 1(k).

MEDICINE PROCEDURES

Such procedural benefits are intended for the professional service of placing an instrument or introducing diagnostic radiopharmaceuticals. RADIOTHERAPY (including Therapeutic Isotopes)

\$

The listed benefits are for the professional services of a certified therapeutic radiologist, the services of a specialist for the intracavitary or interstitial application of radium or sealed sources and the services of a specialist using non-sealed sources of radioisotopes in a laboratory authorized by the Atomic Energy Control Board of Canada. Other medical services to the patient are not included in these figures. The cost of material is additional.

TELERADIOTHERAPY

Paid only to a certified therapeutic radiologist, (Spec. code 34).
The fee for all inpatient services is a hospital charge.

DIAGNOSTIC RADIOLOGY

Column T — The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus; premises, technical services, administration and collection costs.

Column P — The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

From 1980 to 1982 OHIP paid a surcharge on the technical fees to private radiology clinics in recognition of the increase in film cost.

Hospital out-patient technical fees will be paid at 94.17% of the technical fee listed in the Schedule of Benefits.

Notes and Interpretations:

1. Private offices and hospital outpatient departments will claim the sum of Columns T plus P.

2. Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.

3. Benefits for clinical procedures related to x-ray examination are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.

4. If less than the minimum number of views are performed, reduce listed benefits by 25% (this reduction applies to both technical and professional component). If more than the minimum number of views are performed, no further benefit is applicable unless specifically listed.

5. If the examinations which are requested by the referring physician yield abnormal findings or if they would yield information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and claim for them (if listed).

6. Claims for X-ray services, when referred by an Osteopath, Chiropractor or Chiropractor to a private X-ray facility are not benefits of O.H.I.P.

7. Claims for X-ray services, when referred by an Osteopath or Chiropractor to a hospital outpatient department are benefits.

8. Coding

- When coding the total benefit use suffix A.
- When coding the technical portion only use suffix B.
- When coding the professional portion only use suffix C.
- When coding claims from certified radiologists (33) use the listed codes (i.e. X001-X230) plus the appropriate suffix.
- When coding claims from non-certified radiologists increase the first numerical digit in the listed codes by 5 (i.e. X501-X730) plus the appropriate suffix.

DIAGNOSTIC RADIOLOGY

9. When a radiologist is asked to x-ray one extremity only, no additional claim should be made for comparison x-rays initiated by the radiologist.

10. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

11. A stereo pair is to be counted as two views.

12. No extra claim should be made for rapid sequence I.V.P.

13. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

14. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where "fluoroscopy" is generally regarded as an integral part of the examination, e.g. examinations of the G.I. tract, urinary tract, special procedures.

15. "Colon — air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

16. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

17. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

18. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

19. Chest studies should not be routinely done and claimed in mammography cases.

20. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

21. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

22. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should determine which examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed, a single film is usually inadequate.

23. Conventional films of the spine should not be routinely done and claimed before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they had been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

24. Pharynx and oesophagus (cine or videotape) — X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

DIAGNOSTIC RADIOLOGY

25. Lumbar or lumbosacral spine (X028, X205, X206) does not include the entire sacrum. However, an examination of the sacrum may be carried out and claimed only when specifically indicated.
26. The listed benefits apply to unilateral examinations except for central structures or as otherwise specified.

CLINICAL PROCEDURES ASSOCIATED WITH
DIAGNOSTIC RADIOLOGICAL EXAMINATIONS

- Note:**
- 1. These procedural benefits are intended to cover compensation for the professional service of placing an instrument and, if done, of introducing contrast media (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.
 - 2. Radiological charges are additional: see similar entries under section on RADIOLOGY.
 - 3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

Code With a few exceptions specifically indicated below, the listed procedural benefits are for the procedure(s) alone.

Consultations or visits when such services are rendered, may be claimed in addition to the procedure(s).

G700 When a procedure(s) is the sole reason for a visit, add \$3.20 per patient visit for those procedures marked (+) regardless of the number of procedures carried out during that visit. However, if the patient visit is to a physician's office or a diagnostic facility controlled directly or indirectly by a physician who has examined (or is about to examine) the patient and referred the patient to such a diagnostic facility, G700 may not be claimed under these circumstances.

Note: G700 is not payable to a hospital department.

Schedule Interpretations:

1. If in the course of any office or home visit (see Preamble, Part B), a haemoglobin screen and/or haematocrit (any method or instrument) is carried out, code G481 may be claimed for this service (see page 89). Urinalysis may be claimed with or without an associated visit to a physician's office, except for screening and urinalyses which are not medically necessary (see Preamble, part A, paragraph (2)).
2. Some benefits for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. However, when only one benefit is listed for a service, it represents the professional component only. The technical component includes the salaries of support staff, equipment depreciation or lease costs, supplies and costs associated with the preparation of a written report. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report.
3. The Preamble applicable to Surgical Procedures also applies, where appropriate, to Diagnostic and Therapeutic Procedures.

ALLERGY

Note: If, in addition to the allergy injection, the patient requires a minor assessment only of his allergic condition, the physician may claim for code G212 only. However, if a patient requires a more complete assessment of his condition or if a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition any of which would have otherwise required a separate office visit, the physician is entitled to claim for the appropriate assessment as well as the injection.

Notes:	(1) The foregoing benefits apply only to respiratory care rendered in a Respiratory Care Unit or other special care unit such as the ICU where special monitoring equipment is available. The fees under Physician-in-Charge apply per patient treated, i.e., while the physician-in-charge may change during the course of treatment, the fee formula as set out should be charged by the physicians involved as if there was only one physician-in-charge during the treatment program.		
	(2) The appropriate consultation, procedure and visit benefits shall apply after stopping artificial respiration or special care.		
	(3) If a patient has been discharged from the Respiratory Care Unit more than 48 hours and then is re-admitted to the Unit, the 1st day rate applies again on the day of re-admission. For re-admission less than 48 hours after discharge, the appropriate code G406-G408 should be used.		
	(4) Other physicians apart from those providing respiratory care may claim the appropriate consultation, visit and procedure benefits not listed in the schedule for Respiratory Care. Anaesthetists rendering short duration interim care in the recovery room prior to transfer to the special care unit should submit claims in accordance with the Preamble, Part B, paragraph 33(J). Longer duration care rendered in accordance with the above definition of Respiratory Care should be considered as the applicable first day care G405.

In the second exception, the appropriate assessment and minor telerradiotherapy may be claimed.

OBSTETRICS

1. Obstetrical care is divided into its components. A prenatal general assessment may be claimed and shall comprise a full history, an inquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient. Subsequent prenatal visits shall comprise the necessary history and inquiry, examination, appropriate record, pregnancy related counselling and advice to the patient. Normal (uncomplicated) prenatal care includes a prenatal general assessment visit, then monthly visits to 32 weeks, followed by visits every 2nd week to 36 weeks, then weekly visits until delivery. However, complicated pregnancies may require additional visits. Labour — delivery and postpartum care are listed separately.

2. If an uncomplicated obstetrical patient is transferred from one physician to another physician for obstetrical care, the appropriate assessment fee may be charged by the second physician, followed by prenatal visit fees. If the obstetrical patient is referred to a consultant for obstetrical care because of the complexity, obscurity or seriousness of the case, the consultant may claim for a consultation in addition to the prenatal visit benefits.

3. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital care should be claimed on a per visit basis.

4. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled prenatal visits, the physician may charge the appropriate visit benefit.

5. The listings under heading Referred Services may be claimed by the consultant physician in addition to the appropriate consultation or visit benefit. They may not be claimed by physicians providing obstetrical care to their own patients.

6. If a consultant is requested by another physician to perform a surgical induction of labour, or emergency removal of a Shirodkar suture (except at delivery) assuming someone else has inserted the suture, the consultant should claim a consultation benefit for this (these) service(s).

7. Medical induction or stimulation of labour may be claimed once per pregnancy by any one physician and only when carried out for a recognized obstetrical complication(s) and does not qualify for detention benefits.

8. The listings for "Attendance at labour and attendance at delivery" and for "Attendance at delivery" may not be claimed by any physician when a patient is transferred to a second physician for normal obstetrical care.

9. Ordinary immediate care of the newborn is included in the labour-delivery benefit and, when the service is rendered by the anaesthetist, it is included in the anaesthetic benefit. Active resuscitation of the newborn provided by any physician may be claimed under codes G521, G522 (Life Threatening Emergency Situation).

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed.

11. When an obstetrician routinely *transfers* all newborns to the care of another physician, the latter should not claim consultation benefits for these "transferrals". If the baby is well, the physician may claim the newborn care in hospital benefit of \$39.00 plus \$39.00 for code H267 (page 51), attendance at maternal delivery (if this service is given). If the baby is sick, the physician may claim for a general assessment and for attendance at maternal delivery (if

OBSTETRICS

this service is given) plus daily visits for as long as his/her services are required. If an obstetrician normally cares for newborns himself or transfers the care of newborns to a general or family physician but refers a newborn to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for his service according to the following guidelines:

- (a) If attendance at maternal delivery is rendered, code H267 may be claimed and, if a general assessment of the baby is carried out, code C263 may be claimed as well. However a post-natal consultation on the baby (C265) may not be claimed in addition to H267.
- (b) If a paediatrician has not attended the delivery, a post-natal consultation may be claimed (if this service is rendered) even though a pre-natal consultation may already have been claimed.

12. When a physician provides prenatal visits, attends labour, assists or administers the anaesthetic at Caesarian Section and visits the patient post-operatively, he is entitled to claim for prenatal visits, attendance at delivery, assistant's or anaesthetist's benefits for Caesarian Section, and postoperative supportive care while the patient is in hospital.

13. Physicians may claim for assisted breech delivery (P020) when the service includes spontaneous delivery to the umbilicus, with extraction of the shoulders, arms and after coming head.

14. The Preamble applicable to Surgical Procedures also applies to obstetricians, where appropriate.

15. The premiums applicable to Obstetrics are as follows: When Caesarian sections or the surgical management of ectopic pregnancies commence after 5:00 p.m. and before midnight or on Saturday, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). For all other obstetrical procedures e.g. deliveries occurring on Saturdays, Sundays and Holidays, increase the fee for delivery and other obstetrical procedures done in continuity with the delivery by 20% (E409). When time of delivery occurs after midnight and before 7:00 a.m. any night during the week, increase the fee for delivery and other obstetrical procedures done in continuity with the delivery by 50% (E410). These premiums are not chargeable in addition to the obstetrical procedural fee(s) if labour is induced by medical and/or surgical means by the same physician. However, a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

SURGICAL PROCEDURES

Preamble:

FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE 12.

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGE 13.

- (1) The surgical benefit (except for fractures or dislocations requiring no reduction and other procedures either marked "I.O.P." or including complete care) includes hospital visits rendered by the surgeon two days prior to surgery, the operative procedure, the post-operative care usually associated with the procedure(s) rendered by the surgeon while the patient is in hospital, and one office visit for follow-up examination, if necessary. If the surgeon is required to provide listed services not usually associated with the procedure(s), he may claim for these. If special visits to hospital are required and rendered, the surgeon may claim the appropriate special visit premium even if the basic hospital visits are not chargeable.

The surgical benefit as noted above does not include the major pre-operative visit (e.g. consultation, general assessment, etc.) at which the decision to operate is made, regardless of the time interval between the major pre-operative visit and the surgery. The hospital or day-surgery admission assessment (consultation, repeat consultation, general assessment or re-assessment, specific assessment or re-assessment) may not be claimed by the surgeon unless it happens also to be the major pre-operative visit as defined above. Visits rendered prior to admission (excluding admission assessments) and hospital visits (minor assessments) rendered prior to two days before the surgery may be claimed in addition to the surgical benefit. For patients remaining in hospital because of complications, visit benefits may be claimed in addition to the surgical benefit after the second post-operative week. The starting point for calculating the appropriate number of hospital visits allowed in accordance with the Schedule after the second post-operative week is the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital.

The listed surgical benefit includes the generally accepted surgical components of the procedure. The listed benefit of a procedure normally also includes any necessary repair of iatrogenic damage occurring during the course of the surgery.

- (2) When a physician makes a special trip to perform a non-elective surgical procedure during the daytime (Monday to Friday), he may claim the appropriate special visit, a consultation if the case is referred (except for fractures or dislocations requiring no reduction) or the appropriate assessment if the case is not referred plus the procedural benefit(s). When the special visit is to deal with fractures or dislocations requiring no reduction, a minor assessment is the appropriate benefit to be added to the special visit and fracture or dislocation benefits. If the non-elective procedure is carried out at night (after 5:00 p.m. and before 7:00 a.m.), or Saturdays, Sundays and Holidays, the physician may claim a special visit applicable to the consultation or assessment and the surgical premium E409 or E410 (see Preamble, Part B, paragraph 20).
- (3) When more than one operative procedure (non-I.O.P.) is performed by the same surgeon at the same time and/or under the same anaesthetic or during the same hospitalization for the same condition, the benefit shall be the full benefit for the major procedure plus 85% of the listed benefit(s) for additional procedures, unless otherwise indicated in the Schedule and except where such combined operations are independently specified as items in

SURGICAL PROCEDURES

this Schedule. This paragraph applies to staged procedures and to each side of bilateral procedures, but does not apply in the case where a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no claim should be made (see also OHIP Bulletin #4122, July 3, 1979).

- (4) When a subsequent operation(s) becomes necessary for the same condition because of a complication, the full benefit will apply for each procedure.
- (5) When a subsequent non-elective operation(s) is performed for a new condition, the full benefit will apply for each procedure.

When a subsequent elective procedure is done for a different condition during the same hospitalization, the benefit for the lesser procedure shall be reduced by 15% unless performed by another surgeon in which case the full benefit will apply.

- (6) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the listed benefit for each condition. Under these circumstances, the basic assistants' units should not be claimed by either operating surgeon; however time units may be claimed when appropriate.
- (7) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should claim for the surgical procedures and the other surgeon should claim the assistant's benefit.
- (8) Where two surgeons are working together in surgery in which neither a team benefit nor other method of claiming is set out in the schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each providing a separate service in his own specialized field, each surgeon may claim the full listed benefit for the procedure he performs. This, however, does not apply to those cases wherein an additional surgeon(s) is involved simply because he may be more skillful at carrying out a procedure which the first surgeon normally should be able to do. Neither does it apply to those cases wherein one or more additional surgeons perform components of a main procedure for which there is a listed combined tariff. For the latter two circumstances, the first portion of this paragraph pertains and the additional surgeon(s) may claim assistant's benefits only, along with consultation and visits if appropriate. If a surgeon, in addition to performing a specialized portion of the procedure, acts as an assistant during the remainder of the procedure, he may also claim time units (but not basic units) for assisting.
- (9) Unless otherwise stated, the listed procedural benefits are for unilateral procedures.
- (10) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and/or visit benefits for procedural benefits (except as in paragraph 11), is not in keeping with the intent of the schedule.
- (11) For fractures and dislocations requiring no reduction and for other procedures which include complete care, when the listed benefit is less than the consultation benefit and the case is referred, the physician may claim for the consultation instead of the surgical benefit. However, to avoid the consultation being counted as such under the OHIP limi-

SURGICAL PROCEDURES

tation rules on the number of consultations allowed per year, the physician should claim for the consultation under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.

- (12) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician may claim for the procedure as well as for the appropriate assessment.
- (13) Where a procedure is specified as "Independent Operative Procedure (I.O.P.)", the procedural benefit may be claimed in full. In addition, visit benefits, consultations etc. may be claimed when both services are actually rendered. When an I.O.P. procedure is done in conjunction with non-I.O.P. procedure(s), no claim may be made for the consultation, pre- and post-operative care related to the I.O.P. procedure. The listed I.O.P. benefit may be claimed in these circumstances along with the benefits for the non-I.O.P. procedure(s) and the related major pre-operative visit in accordance with paragraph (1) of this Preamble. When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits may be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed.
- (14) When procedures are specifically listed under Surgical Procedures, physicians should use these listings rather than applying one of the plastic surgery benefits listed under operations on skin and subcutaneous tissue.
- (15) For excision of tumours not specifically listed in this Schedule, claims should be made on an I.C. basis (code R993). Independent consideration also will be given (under code R990) to claims for other unusual but generally accepted surgical procedures which are not listed specifically in the Schedule (excluding non-major variations of listed procedures). In submitting claims, physicians should relate the service rendered to comparable listed procedures in terms of time and difficulty (see Preamble, Part B, paragraph 22).
Independent consideration also will be given (under code R991) to out-of-Province claims for generally accepted surgical procedures which are not available in Ontario, for which a patient has been referred by an Ontario physician and for which prior approval from OHIP has been obtained. (See OHIP Bulletin #4148)
- (16) Cosmetic or Aesthetic Surgery: means a service to enhance appearance without being medically necessary such as surgery for correction of facial wrinkles, surgery for eyelid wrinkles (symmetrical and without a functional problem), rhinoplasty for appearances only, etc. These services are not benefits of OHIP. (See Preamble, Appendix A).
- (17) Reconstructive Surgery: is surgery to improve normal appearance and/or function to any area altered by disease, trauma or congenital deformity. Although surgery solely to restore appearance may be included in this definition under certain limited conditions, emotional, psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery.

Appendix D of the Preamble to this Schedule describes the conditions under which surgery for alteration of appearance, only, may be a benefit of the Plan.

Physicians should submit requests to their District OHIP office for authorization of any

SURGICAL PROCEDURES

proposed surgery which may fall outside of OHIP coverage. Among those procedures for which requests *must* be submitted before the procedure is performed are:

- (a) augmentation mammoplasty (excluding post-mastectomy breast reconstruction)
- (b) blepharoplasty
- (c) dermabrasion (excluding face and neck)
- (d) epilation of hair
- (e) face lift
- (f) hair transplant
- (g) panniculectomy, lipectomy
- (h) reduction mammoplasty
- (i) rhinoplasty or septorhinoplasty
- (j) scar revision (excluding face and neck)
- (k) sex-reassignment surgery
- (l) tattoo removal (excluding face and neck)

Requests for authorization of proposed surgery should identify the medical necessity of the surgery. Moreover, since it is the procedure for which the authorization request is being made, it must be adequately described and accurately related to the condition it is intended to alleviate.

Note that when a surgical procedure is not a benefit of the Plan, the associated anaesthetist's charges, assistant's charges and hospital costs normally also are excluded from OHIP coverage.

- (18) Procedural benefits (non I.O.P.) include the removal of sutures where both services are rendered by the same physician unless the removal of sutures is done after one office visit for follow up examination has already been provided. If sutures are removed subsequent to the first post-operative office visit, or if they are removed by a physician other than the operating surgeon, or following an I.O.P. procedure, "visit fees" apply.
- (19) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity may be given independent consideration.
- (20) When a procedure is performed for which only "local anaesthetic" and/or "general anaesthetic" listings appear, and an anaesthetic is not required, the procedure should be claimed under the "local anaesthetic" listing. When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only.
- (21) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.

If closure is by other flaps, I.C. may be given to the use of closure codes in lieu of the excision codes.

	Debridement and Dressing (I.O.P.) (not to be claimed in addition to Z176, not chargeable in addition to any surgical procedure unless complication(s) require such care in excess of the usual post-operative care)			
U.V.C.	— minor		visit fees	
Z153	— major		8.50	
Z144	— requiring general anaesthetic	4	35.40	4

	Suture (I.O.P.)			
	Simple and uncomplicated			
Z176	— insertion of sutures only		9.20	
U.V.C.	— removal of sutures only (See Surgical Preamble, paragraph (18)		visit fees	
Z178	— extensive, multiple, complicated, primary or secondary (including post-operative haemorrhage) or requiring general anaesthetic		I.C.	4
E542	— when sutures are inserted in private office or home, add		3.50	
Notes:	(1) The benefits for Z176, Z178 include the use of sutures, local anaesthetic, tetanus toxoid and routine observation until the sutures have been removed. (2) With the accord of the Ontario Medical Association, the following guidelines are suggested to assist in the determination of an appropriate charge to submit for independent consideration under Code Z178 for suture of skin lacerations: 1. The suturing of most simple lacerations smaller than approximately 4 cm in length should be coded as Z176 and claimed accordingly.			

SURGICAL PROCEDURES

2. The suturing of other lacerations should be claimed under code Z178 on an Independent Consideration basis according to the following guidelines:
- (a) The stated benefits are for suturing the laceration only; the appropriate consultation or visits may be claimed in addition.
 - (b) Simple lacerations with a length of 4 cm or more, but less than approximately 8 cm\$22.70
 - (c) Lacerations in difficult area (e.g. lip, eyelid, eyebrow, corner of eye, etc.) or which are deep such that they require tying off bleeders and/or closure in layers (i.e. subcutaneous and cutaneous)\$22.70
 - (d) Lacerations involving components of both (b) and (c)\$45.35
 - (e) Lacerations requiring extensive debridement, add 50%.
 - (f) A combination of 2 or 3 lacerations falling within the foregoing guidelines would require individual assessment of each laceration. e.g.: for the suturing of a 6 cm scalp laceration requiring tying off bleeders and/or layer closure, a 3 cm cheek laceration and 1 cm laceration through the mucocutaneous border of the lip, the benefit claimed could be calculated as follows:
Scalp (d)\$45.35
Cheek (Z176) 9.20
Lip (c) 22.70
Total (Z178)\$77.25
(plus the appropriate consultation and visit benefits)
 - (g) More complicated lacerations should be compared in scope and difficulty with other similar services which have definitive benefits listed in the Schedule.
3. In every case, claims for Z178 should be accompanied by sufficient description of the procedure rendered and an explanation of the charges submitted (see *Preamble, Part B, paragraph 22*).

- Notes:
- (1) The benefit will depend on the size and location of the area grafted and the type of graft.
 - (2) Additional procedures other than the skin grafting are extra, e.g. tendon grafts, inlay grafts, etc.
 - (3) Skin grafts or pedicle flaps done during a procedure should be claimed for on their own merit (unless specifically listed as being inclusive for that procedure).

SURGICAL PROCEDURES

Preamble

- (1) Corrective splints must be "corrective" to qualify for benefits. The corrective splint listings are not applicable to simple immobilization such as with a Jones bandage or a metal finger splint following soft tissue injury.
- (2) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be claimed in addition to the procedural benefit.
- (3) The benefit for total hip replacement also includes denervation of the hip joint and adductor or abductor tenotomy.
- (4) When closed irrigation is instituted in a bony cavity, soft tissues or joint during a surgical procedure, add \$47.80 (E550).
- (5) When a bone, fascia or dermis graft is required (except for listings in which grafting is included in the benefit and except for fusions and management of pseudarthrosis) in the course of an operative procedure (including treatment of fractures) add \$50.40 (E551) if the autogenous graft is taken through a separate incision; add \$40.60 (E552) if autogenous bone is taken through the same incision, and add \$20.30 (E553) if homogenous bone is used. (except where segmental donor allografts are used to replace respective segments (see para. 8))
- (6) If methylmethacralate is required for internal fixation in the course of an operative procedure (with the exception of insertion of prostheses and cranioplasties), add \$50.40 (E547).
- (7) When an operation is done for the sole purpose of harvesting bone, the fee shall be 85% of the fee applicable for the resection of that segment of bone from a live donor and is to be charged to the recipient and a fee of \$95.70 when the segment(s) of bone are harvested from a cadaver.
- (8) For taking of a bone graft by other than the operating surgeon from the same patient, a fee of \$127.50 (Z242) shall be applicable.
- (9) Cost of materials is not a benefit of OHIP.
- (10) When secondary closure of skin wounds is required following bone surgery, claim \$63.80 (R588).
- (11) Insertion of a wire or pin for traction (excluding fractures and dislocations) \$21.25 (Z210).

FRACTURES AND DISLOCATIONS

Preamble

- (a) **OPEN REDUCTION** shall mean the reduction of a fracture or dislocation by an operative procedure or the treatment of the fracture by intramedullary fixation that might not include the opening of the fracture.
- (b) **CLOSED REDUCTION** shall mean the reduction of a fracture or dislocation by non-operative methods (to include skin traction or K wire or Steinmann's pin for balanced traction.)
- (c) **CLOSED REDUCTION** and immobilization by percutaneous pinning of a fracture or dislocation shall command a closed reduction fee plus 30% (E569). Immobilization by rigid external skeletal fixation shall command a fee of 40% (E555) above closed reduction fee.
- (d) **NO REDUCTION** shall mean the treatment of a fracture or dislocation by any method other than that designated in (a), (b), or (c) above and includes the use of the initial external support.
- (e) The listed benefits for fractures or dislocations requiring no reduction include the major pre-operative visit. For fractures or dislocations requiring reduction, the major pre-operative visit (e.g. consultation, general assessment, etc.) may be claimed in addition to the listed benefits for reductions.
The stated benefit is to cover full treatment by the physician claiming that benefit, including initial and subsequent application of cast(s) and necessary after care up to 2 months (includes Therapeutic Procedures under G467), except as in (g) and (h) following.
- (f) For combinations of fractures, dislocations, and/or surgical procedures (non I.O.P.), the benefit for the major fracture, dislocation or procedure shall be 100%, and the benefit for other fractures, dislocations and/or surgical procedures shall be 85% where a procedural fee is applicable. Where no procedural benefit is applicable but where that fracture necessitates hospitalization or concurrent care, a visit fee will apply in addition to the procedural fees stated above.
- (g) In cases where two or more reductions (closed or open) are performed on different occasions for one fracture or dislocation by one or more surgeons; the full benefit should be claimed for the final reduction and after care. Previous attempted reduction(s) should be claimed at 75% of the full listed benefit(s) for that reduction.
- (h) When a patient is transferred from an acute care hospital to a chronic or convalescent facility, additional benefits on a chronic care basis shall be allowed to other than the operating surgeon. These benefits shall be based on the chronic care schedule.
- (i) Compound fractures or dislocations, requiring extensive debridement — 50% over the benefit for reduction (E556).
- (j) If reconstructive procedures on soft tissues are required, such services should be claimed on their own merit.
If bone grafts are used in open reduction of a fracture, paragraph (6) of the Preamble to the musculoskeletal system applies.

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM
FRACTURES AND DISLOCATIONS - Cont'd

- (k) When a patient is transferred to another surgeon for after care of a fracture or dislocation treated by no reduction or closed reduction, except for emergency splinting (see paragraph (l), below) the surgeon rendering the initial care should claim 75% of the listed benefit and the surgeon rendering the subsequent care visit fee except where otherwise specified. In cases involving open reduction, the percentages should be 80% for the surgeon providing the initial care. Paragraph (11) of the Preamble to Surgical Procedures also applies.
- (l) The benefit for emergency splinting of a fracture in the emergency department should be on the basis of the emergency room visit or the special visit to the hospital, whichever applies, plus application of cast if rendered and if consistent with other portions of this preamble.
- (m) In the case of fractures, dislocations or minor avulsion fractures not requiring reduction, consultation or visit benefits (use a fracture diagnosis) shall apply unless a specific benefit is listed. For fractures listed at "visit fees", the following also apply:
 - (1) When two or more fractures, *each* listed at "visit fees", are treated, only one visit benefit should be claimed for each visit, even though more than one fracture is assessed, treated, or re-assessed.
 - (2) When fractures or other procedures which are listed at "visit fees" are treated along with treatment of fractures which have definite benefits listed, visit benefits should not be claimed in addition to claims for other fracture care.
 - (3) When fractures or other procedures which are listed at "visit fees" are treated along with the performance of non-IOP surgery, visit benefits should not be claimed in addition to claims for the surgery.
 - (4) For the combinations described in items (2) and (3) above, visit benefits are appropriate for follow-up care of the fractures listed at "visit fees" only for visits which, because of these fractures, are required in addition to the usual after-care of the other fractures or other surgery.
- (n) In case of fractures or fracture dislocations with associated paraplegia, hospital visit benefits may be charged in addition to the surgical benefit after two weeks of post-operative care.
- (o) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be charged for in addition to the procedural benefit.

6. Schedule 16 to the said Regulation, as remade by section 6 of Ontario Regulation 336/82 and amended by section 2 of Ontario Regulation 633/82, is revoked and the following substituted therefor:

Schedule 16

LABORATORY MEDICINE

Note: Claims for laboratory services, when referred by a Dentist, Osteopath, Chiropracist or Chiropractor are not insured services.

PREAMBLE:

1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left at a sufficient level to cover administrative costs. This benefit is not applicable to referred-in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.
2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.
3. A number of tests are listed in different sections of the schedule, i.e. when more than one method of performing the test is available, e.g. Aminophylline is listed under both Biochemistry and Radioassays. Assays of ligand type other than radioisotopic are listed under Biochemistry.
4. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.

Note: Glucose Tolerance Test is not listed in the Schedule. When requested the laboratory will comply with a standard 3-hour procedure consisting of 5 blood glucoses and 5 urinary sugar tests, unless specifically ordered otherwise (e.g. 5-Hour) and will bill for the number of each done if less.

5. Code L418 or L417 may not be claimed by a physician in addition to claim(s) for any treatment or assessment. However, Code G481 (see page 89 of the 1982 OHIP Schedule of Benefits) may be claimed by a physician if a haemoglobin screen (any method or instrument) is carried out in the course of an office or home visit. Urinalysis may be claimed with or without an associated visit to a physician's office (except for screening and urinalyses which are not medically necessary).
6. When a screening culture method (e.g. Agar spoon) is used on a urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed. The benefits for L633 and L634 include any necessary microscopic examination of the urine.
7. The Physician assumes responsibility for all cytology smears and the professional benefits (L804 to L815 inclusive) are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.
8. Only those tests which are requested are to be claimed with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be in-

LABORATORY MEDICINE

complete, insufficient or meaningless to the referring physician, the medical director of a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.

9. A test must be completed in accordance with the pertinent Schedule listing in order to charge for it. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimations: creatine does include creatinine (as specified). Notwithstanding the foregoing, and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.
10. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported, or for control tests or repeat tests on the same patient sample.
11. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.
12. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine should be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion (i.e. a certain quantity per mg. of creatinine) the performance of a creatinine is mandatory and may be claimed).
13. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by a serial titration, both the screening and titre fees may be claimed. If the titration is a **micro technique using plates**, it is the equivalent of a tube titre, the wells being miniature tubes.
14. When a test for trichomonas identification (any method) is carried out in association with L625 or L627, code L653 may be claimed in addition. L653 also may be claimed when Wet Preparation is used for direct examination of a fresh specimen for vegetative amoebae or similar parasites. However, the wet preparation used in the faeces concentration technique for parasites and ova is included in L650.
The conditions set down in paragraph 8 of this preamble must be adhered to.
15. It is recognized that in all laboratory tests there is a professional component.
16. The maximum number of units which may be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit); L399 (WBC Count) and L397 (RBC Count) is **11 LMS** units per patient per day, whether automated, semi-automated or manual methods are used. L700 is not included in this total and may be claimed separately, if appropriate. Laboratories using multichannel equipment should use individual codes as described above.
17. The maximum number of units which may be claimed for any combination of the tests represented by the following codes will be 40 LMS units per patient per day:

L005 L061 L194 L223 L252

LABORATORY MEDICINE

L030	L067	L204	L225
L045	L111	L208	L226
L053	L191	L222	L251

This maximum of 40 units applies on a per patient basis, regardless of the number of specimens submitted and regardless of the number of laboratories involved in performing the individual tests. Code L700 is not included in this maximum and should be claimed separately, if appropriate.

18. The maximum number of units which may be claimed for any combination of chemical analyses performed on a single sample by means of an automated chemical analyzer with simultaneously functioning channels is 18 LMS units (L225).
19. The definitions and guidelines in this paragraph apply to the Blood Bank section of Laboratory Medicine:
 - (a) L471 Antibody Identification — incomplete antibodies. A panel of any number of cells regardless of suspending media or technique used. Preparation of eluate and/or antibody absorption is included.
 - (b) L472 Antibody Identification — complete antibodies. A panel of any number of cells for the identification of complete antibodies by direct agglutination.
 - (c) L473 Parallel Titration — to be used when two sequential patient serum specimens are tested to detect a change in antibody titre. Includes a repeat antibody identification on the current sample.
 - (d) L490 Blood Group — ABO and Rh₀(D). The subgroups of A and RhD^a are included where indicated. A direct AHGT is also included in L490, therefore, L495 may not be charged on the same patient when this code is claimed.
 - (e) L492 Crossmatch. When an initial crossmatch is requested the appropriate claim is for L490 x 1, L482 x 1 plus L492 for each unit ordered. L490 and L482 may not be claimed more than once on the same day of service. L490 and L493 may not be claimed when these procedures are carried out as a confirmatory test on the units of blood to be transfused.
 - (f) L493. This listing includes L490 (see (d), above) and Rh phenotype to include the antigens C, D, E, c, e, and D^a when indicated. Any other antigen is to be claimed under L494.
 - (g) L494 Blood Group per antigen. Antigens stated in L493 and L490 are excluded from this listing.
 - (h) L495 Direct AHGT. This listing may be claimed when ordered as a single procedure or in addition to L482 when the latter is requested as a single procedure. L495 may not be claimed when L490 or L493 is claimed with L482 on the same patient on the same visit.
20. Antibiotic sensitivities should not be done routinely, but only when, by reason of its identification and/or its concentration, the isolated organism has a high probability of being pathogenic.
21. The use of Nickersons Medium as a screening test for yeast is not a benefit.
22. The carcinoembryonic antigen test (CEA) L690 is not to be used as a general cancer screen. It is to be used only for following established malignancies.
23. This preamble is intended to apply to everyone using codes L700 and L001 to L724 and codes L800 to L829.

LABORATORY MEDICINE

- 24. The benefits for patient documentation and specimen collection and each test are calculated by multiplying the individual L.M.S. Unit values by 0.45¢.
- 25. Laboratory tests on specimens sent outside Ontario are not a benefit of the Plan.
- 26. Effective January 1, 1983, Reference Laboratories receiving specimens for additional (secondary) tests from another Laboratory that normally would be claimed as L319 or L500 should be claimed as L919 or L900 respectively.

Code		LMS Units
L700	PATIENT DOCUMENTATION AND SPECIMEN COLLECTION BENEFIT	7

- L700 may only be claimed with an "L" code other than L701 to L724 and L800 to L829.
- 1. Limited to 1 per patient, per day.
 - 2. Not allowed to the recipient of a referred sample from another laboratory.
 - 3. Not allowed to the attending physician.
 - 4. Not refundable (in whole or part) to the referring physician or referring laboratory by the laboratory performing the test(s).
 - 5. Not applicable to a patient visit solely to receive instructions or collection containers.
 - 6. When multiple tests are ordered for the same patient for the same day, only one L700 may be claimed even though all specimens may not be available on any one day.
 - 7. Not applicable to items under anatomical pathology, histology and cytology section.
- (Fee Codes L701 to L724 inclusive).

Note

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-grey-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contraindicated.

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static; it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p.8 (FDA Cardiovascular Advisory Committee).

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static; it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p.8 (FDA Cardiovascular Advisory Committee)

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 1/83.

Exemption—Corporation of the
Township of Essa—Essa-TP-1.

Made—December 2nd, 1982.

Approved—December 3rd, 1982.

Filed—January 4th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—CORPORATION OF THE TOWNSHIP OF ESSA—ESSA-TP-1

Having received a request from Mr. Arthur Roth,
Clerk-Treasurer, that an undertaking, namely:

the activity of constructing, operating and maintaining a water supply and distribution system, including groundwater wells, pumphouse, watermains, and service connections for the McGeorge area in the Police Village of Angus;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The persons living in 125 homes will be forced to continue to depend on an existing antiquated water system which experiences frequent interruption in supply, continued inadequate pressures and a deteriorating water supply.

B. The homeowners in the area could be exposed to a serious threat to the public health and safety because of the potential for failure of the existing water system.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent advises that the environmental effects of the construction and operation of the water works are expected to be limited and not adverse.
- B. The proposed watermains will be constructed in close proximity to existing watermains within road allowances in the Village shown on plans of subdivisions which were registered almost 20 years ago servicing existing homes within the McGeorge area.
- C. The proponent advises that the connecting trunk watermain would be located on a Township road allowance a short distance (approximately 3600 feet) from the Village. Construction impacts on the area would be short term.
- D. The well site is located in a rural setting close to the Village with no significant natural characteristics. Water discharged during well construction and pumping tests would be required to be reduced in sediment content and discharged at low enough rates to prevent erosion.
- E. The well site is located some 900 feet from the nearest homeowner. Construction operations would only pose short term deviation from day to day living habits in the area. The small building housing the control equipment would be designed to conform to the natural characteristics of the area.

This exemption order is subject to the following terms and conditions:

1. Strict site supervision be provided to ensure the enforcement of all protective measures which would be incorporated in all contract documents to limit erosion during construction to a minimum.
2. All contract documents contain provisions that any interference to private well supplies in the area as a result of the construction of the proposed water distribution system be remedied by the contractor(s).
3. Construction methods and schedules are to be implemented in consultation with the Ministry of the Environment, Barrie District Office and follow the "Environmental Considerations for the Planning and Construction of Sewer and Water Projects" (Nov. 1980) Guidelines.

4. The trunk main where it crosses a tributary to the Nottawasaga River will be incorporated into the existing concrete bridge so that no excavation would be required at the stream. O. Reg. 1/83.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 2/83.

Exemption—Ontario Hydro—OH-27.

Made—December 16th, 1982.

Approved—December 17th, 1982.

Filed—January 4th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-27

Having been advised that Exemption Order OH-23/2, which was published as O. Reg. 875/81, is expiring and that an undertaking of Ontario Hydro, namely:

The activity of Ontario Hydro granting leases, licences, easements or similar rights to others for the use of Ontario Hydro owned property

should be exempt from the application of the Act pursuant to section 29; and

Having been advised by the proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Individuals wishing to obtain a lease, licence or easement on Ontario Hydro lands will be interfered with by the delay.
- B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare an individual environmental assessment which could render the proposed secondary use uneconomical.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertak-

ing is exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has satisfactorily complied with the conditions of Exemption Order OH-23/2 by consulting with the Ministry of the Environment and preparing and submitting Environmental Study Reports on secondary use applications which cause environmental effects that can be satisfactorily dealt with by either design changes, mitigation or restoration.
- B. Ontario Hydro has further fulfilled the terms of Exemption Order OH-23/2 by providing notice to and considering the concerns of the public and government ministries which may be affected by the proposed secondary use prior to the granting of a lease, licence or easement to another for the use of Ontario Hydro property.
- C. During the period of Exemption Order OH-23/2, Ontario Hydro has demonstrated through documented case examples that the nature of the environmental effects of secondary uses does not warrant the application of the Act beyond the terms set out in this order.
- D. The betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment will be sufficiently fulfilled by the terms and conditions of this order and by procedures and regulations to date regarding the application of the *Environmental Assessment Act* to public sector undertakings which involve secondary uses.

This exemption is subject to the following terms and conditions:

1. Subject to condition 2, this order does not apply to disposition activities that are for undertakings of persons other than Ontario Hydro for which an environmental assessment is required.
2. Where a disposition is being carried out in connection with, or as part of, an undertaking for which an environmental assessment is required and an approval is issued, or for which an exemption order is issued, the disposition shall be carried out in accordance with both
 - (a) the approval or the conditions of the exemption order; and,
 - (b) the subsequent conditions of this order.
3. A procedural document governing the implementation of this order will be

developed by Ontario Hydro in consultation with the Ministry of the Environment and filed in the Public Record. If the document is not approved by April 30, 1983 by the Director of the Environmental Assessment Branch, this order becomes inoperative. This procedural document shall provide for:

- (a) notification by Ontario Hydro of the public, government ministries and other agencies affected by a proposed secondary use and consultation with these interests as required for identifying and resolving concerns, prior to giving a disposition allowing the proposed secondary use;
- (b) identification and evaluation of environmental effects that require special measures such as design changes, mitigation or restoration, documentation of these in an environmental study report to be filed in the Public Record, and implementation of such measures;
- (c) determination of those secondary uses that require a full environmental assessment in which cases this exemption will not apply.

Until the procedural document required under this condition is finalized, the matters specified above shall be carried out according to the discretion and current procedures of Ontario Hydro; after the document is finalized, they shall be carried out in accordance with the document. With the approval of the Director of the Environmental Assessment Branch, the document may be amended from time to time.

4. This order shall apply to the disposition of all Ontario Hydro properties for twelve months after it is issued. At that time, based on experience during the twelve month period and any further information Ontario Hydro provides, the exemption under this order will be reviewed to determine whether it should continue to apply to all Ontario Hydro property. In the event that it is determined that the application of the order should continue, those properties in addition to transmission line rights-of-way to which the order will apply after the twelve month period and any additional provisions which must be complied with will be specified in amendments to the procedural document referred to in condition 3. Unless such amendments to the procedural document are made, this order shall apply only with respect to transmission line rights-of-way after the twelve month period expires. O. Reg. 2/83.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 3/83.

Exemption—The Corporation of the Improvement District of Dubreuilville—DUBR-ID-1.

Made—December 7th, 1982.

Approved—December 8th, 1982.

Filed—January 4th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE CORPORATION OF THE IMPROVEMENT DISTRICT OF DUBREUILVILLE—DUBR-ID-1

Having received a request from the Corporation of the Improvement District of Dubreuilville that an undertaking, namely:

The construction, maintenance and operation of the municipal water supply and distribution system, identified as Project No. 38-3994-01 on Plan No. 1 submitted by Kresin Engineering and Planning in August, 1982,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The inhabitants of the village will be forced to continue to depend on an existing impaired water supply.
- B. The inhabitants in the area could be exposed to a serious threat to the public health and safety because of the potential for failure of the existing water supply.
- C. The village may experience fire damage to residential structures since the existing system is unable to convey fire flows.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. A formal submission of an environmental assessment by the Improvement District made an otherwise exempt activity subject to the Act. I am of the opinion that the proponent inadvertently included the expansion and upgrading of the water works in the description of the undertaking in the environmental assessment without realizing that such an inclusion had the effect of ending the exemption under the regulation.
- B. The proponent advises that the environmental effects of the construction and operation of the water works are expected to be limited and not adverse.
- C. The proposed water distribution system will be constructed within existing road allowances in the village.
- D. The new well site and pumphouse will be located adjacent to the existing well site and pumphouse.
- E. The proponent advises that public input on the project will be requested.

This exemption is subject to the following terms and conditions:

1. Construction methods and schedules are to be implemented in consultation with the Ministry of the Environment Sault Ste. Marie District Office and will follow the "Environmental Considerations for the Planning and Construction of Sewer and Water Projects" (November, 1980) guidelines.
2. Site supervision will be provided by the consultant to ensure the enforcement of all protective measures.
3. The contract document to be prepared will include an "Environmental Considerations" section to make the contractor aware of responsibilities to minimize environmental impacts.
4. All necessary provincial and other approvals are to be obtained before construction commences.
5. When an approval to proceed has been issued under the Act with respect to any part of the activity to which this exemption order would otherwise apply, such part shall be carried out in accordance with the environmental assessment and the terms and conditions in such approval. O. Reg. 3/83.

ASSESSMENT ACT

O. Reg. 9/83.

Equalization of Assessments Made Under
Section 63 of the Assessment Act.

Made—January 5th, 1983.

Filed—January 6th, 1983.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE UNDER SECTION 63 OF THE ASSESSMENT ACT

1. The equalization of assessments made under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 63 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1982 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1982 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1982 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1982 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1982 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1980, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
3. The total assessment, including assessments made under section 32 or 33 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.
4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of the prescribed class of real property by reason of assessments made under section 32 or 33 of the Act. O. Reg. 9/83, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1982 for taxation in the year 1983. O. Reg. 9/83, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 9/83, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 9/83, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

Class 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this clause; or
- (b) as recreational land.

Class 2

Property assessed either,

- (a) as residential and comprising seven or more residential units, including vacant land municipally zoned principally for residential development described in this clause; or
- (b) as a unit or proposed unit within the meaning of the *Condominium Act* to which subsection 65 (2) of the *Assessment Act* does not apply and that is part of a building or parcel of land containing seven or more residential units, whether or not such residential units are units or proposed units within the meaning of the *Condominium Act*.

Class 3

Property assessed as commercial, including vacant land municipally zoned principally for commercial development.

Class 4

Property assessed as industrial, including vacant land municipally zoned principally for industrial development.

Class 5

Property assessed as farm land.

Class 6

Property assessed as a pipeline.

Class 7

Property assessed as a railway right-of-way.

EXEMPTION—MINISTRY OF NATURAL
RESOURCES—MNR-35/2

Having received a request from the Minister of
Natural Resources that an undertaking, namely:

seismic survey activities of the Ontario Geological
Survey which include the use of explosives as
wave generation sources,

be exempt from the application of the Act pursuant to
section 29; and

Having been advised that if the undertaking is sub-
ject to the application of the Act, the following injury,
damage or interference with the persons and property
indicated will occur:

A. The resource management and protection
facilitated by the activities that comprise the
undertaking will be disrupted.

Having weighed such injury, damage, or interfer-
ence against the betterment of the people of the whole
or any part of Ontario by the protection, conservation

and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources has initiated pre-submission consultation for a Class Environmental Assessment on seismic survey activities and anticipates formal submission in the near future.
- B. The Ministry of Natural Resources will adhere to the provisions set out in the draft Environmental Assessment as submitted for pre-submission consultation.
- C. Seismic surveys provide baseline geological information which is necessary for continued mineral resource management.
- D. Prior to commencement, any approvals required under the Environmental Protection Act will be obtained.

This exemption is subject to the following terms and conditions:

1. The Ontario Geological Survey as well as the involved District Office of the Ministry of Natural Resources will adhere to the provisions set out in the draft Class Environmental Assessment document for any seismic survey project which proposes the use of explosives.
2. The Ministry of Natural Resources shall ensure at all project locations that site garbage is removed and that waste machine oils, fuels and maintenance residues are disposed of in an environmentally acceptable manner.
3. Where the implementation of the undertaking requires some activity, for which an Environmental Assessment has been done and approval to proceed received, be conducted, that activity will be carried out in accordance with the Environmental Assessment and approval to proceed;
4. This exemption shall terminate on December 31, 1983 or at any time prior, upon approval to proceed with respect to the Class Environmental Assessment.

This order comes into force and has effect on and after the date upon which it is signed. O. Reg. 10/83.

The activities of constructing or implementing:

- (a) landfill sites, dumps and transfer stations, which are currently exempted by MNR 19/4 (Ontario Regulation 883/81); and,
- (b) reclamation of fisheries by mechanical and chemical means which had previously been exempted by MNR 19/3 (Ontario Regulation 43/81)

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the projects within the undertaking are subject to the Act while the class environmental assessments for the above undertaking are in the final stages of review and approval under the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The resource management and protection provided by the activities that comprise the undertaking will be disrupted.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Progress has been made in processing the Class Environmental Assessments for the undertakings which have been submitted but not yet accepted;
- B. The Ministry of Natural Resources will adhere to the provisions set out in the Class Environmental Assessments as submitted on

some of the projects within the proposed undertaking to gain experience so that the Class Environmental Assessments may be readily applied to the undertaking after approval;

- C. The Ministry of Natural Resources is subject to the provisions of the Environmental Protection Act and the Pesticides Act.

This exemption is subject to the following terms and conditions:

1. Where the carrying out of a project requires that some activity, for which an Environmental Assessment has been done and an approval to proceed received, be conducted, that project shall be carried out in accordance with the Environmental Assessment and approval to proceed.
2. This exemption shall not apply with respect to a project after the earlier of December 31, 1983, or the granting of an approval to proceed with respect to a Class Environmental Assessment which applies to the project and shall not apply to a project for which the implementation is not scheduled to be completed by December 31, 1983.
3. The Ministry of Natural Resources shall adhere to the provisions set out in the Class Environmental Assessments as submitted on some of the projects within the proposed undertaking. - C. The management responsibility of the Ministry of Natural Resources for the

Woodlands Improvement Act and agreement forests is shared with the landowners. The agreements between the landowners and the Ministry of Natural Resources seek to strengthen that management by introducing reforestation and woodlot improvement activities to provide a more balanced management program to the benefit of the landowner and ultimately to all people in Ontario.

D. Activities for the purpose of reforestation and woodlot management are now exempt under Regulation 636/77 of the Act for agreement forests managed with conservation authorities. Similar activities for municipalities, townships and counties are, however, subject to the Act. These activities should have the same status regardless of the landowner.

This exemption is subject to the following terms and conditions:

1. Where the carrying out of the undertaking by the Ministry of Natural Resources requires that some activity, for which an Environmental Assessment has been done and an approval to proceed received or an exemption granted, be conducted, that activity is not exempt under this order but shall be carried out in accordance with the Environmental Assessment and approval to proceed, or the conditions of exemption whichever is applicable.
2. The Ministry of Natural Resources shall plan, implement and provide for public input for aerial spraying activities in accordance with established policies for herbicides FR-04-40-01, insecticides FR-04-20-01 and the existing guidelines found in the Ministry of Natural Resources' "Aerial Spraying for Forest Management—An Operational Manual".
3. When an Environmental Assessment is submitted for an individual project identified as part of the undertaking exempted by this order, that project shall be deemed to be a separate undertaking and not be exempted by this order. O. Reg. 12/83.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 13/83.

Exemption—Ministry of Natural Resources—MNR-11/5.

Made—December 22nd, 1982.

Approved—December 22nd, 1982.

Filed—January 6th, 1983.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL
RESOURCES—MNR-11/5

Having received a request from the Minister of Natural Resources that an undertaking, namely:

Forest management by the Ministry of Natural Resources on Crown land presently included within forest management units and associated tree nurseries

be exempt from the application of the Act for an additional period pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

The Crown and the public will be interfered with by the delay in planning and implementing of forest management plans which are scheduled to proceed within the period of the exemption.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources requires additional time to develop an approach to the application of the Act to the undertaking.
- B. The Ministry of Natural Resources will undertake measures to implement public participation with respect to an approval of Forest Management Agreements, Forest Management Plans and Operating Plans, including road plans prescribed by these, and with respect to aerial spraying of pesticides for forest management purposes.
- C. The undertaking is an on-going activity of the Ministry of Natural Resources and is an

integral part of the economy of the Province. Since the exemption for this undertaking under Exemption Order MNR 11/4 will expire on December 31, 1982, the application of the Act before June 30, 1983 in the absence of an approval under the Act would result in the halting of forest management on Crown land. Therefore, the interference which would be caused would be undue.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources or its agent shall solicit input and comments from the public and Government agencies at an early stage of the preparation of Forest Management Plans and Operating Plans, as well as thirty days prior to the proposed plan being submitted for approval for implementation.
2. The Ministry of Natural Resources shall develop a procedure to solicit, evaluate and respond to input and comments from the public and Government agencies at an early stage of the preparation of Forest Management Plans and Operating Plans for Crown and company management units. This procedure shall be included as part of the Class Environmental Assessment to be submitted for the Activity of Forest Management on Crown land in Ontario for approval under the Act, and will also be incorporated into the forest management planning process.
3. For the period that this exemption order is in force, the Ministry of Natural Resources shall plan primary public forest access roads on Crown Management Units in accordance with the approved Class Environmental Assessment for "Access Roads to MNR Facilities". This procedure shall give emphasis to the identification of alternative road locations and evaluation of the environmental effects of alternatives considered and shall provide a rationale for the alternative road location which is selected.
4. At least 30 days prior to the anticipated aerial spraying of herbicides or insecticides for forest management purposes, the Ministry of Natural Resources shall notify the public, the appropriate Regional Office of the Ministry of the Environment and the Environmental Assessment Branch of the project. During this period a project description shall be made available for public inspection at the appropriate district office of the Ministry of Natural Resources. Where there is a newspaper or radio or television station serving the area concerned, the public notice shall be in the form of a paid public notice in one or more of such media. An illustrative format which may be used for a printed notice is attached as follows:

Illustrative Format for Public Notice for Aerial Spraying of Herbicides and Insecticides

As part of the Ministry of Natural Resources' ongoing program to regenerate and protect our forests, selected stands (specified area) will be sprayed with an (insecticide or herbicide) to control (competing vegetation or name of insect) starting on or about (date).

Further details about this program, including specific locations, are available from the (District, Regional or Main) Office of the Ministry of Natural Resources.

5. The Ministry of Natural Resources shall prepare a letter for each plan prepared pursuant to this exemption and send it to the Director of the Environmental Assessment Branch for inclusion in the Public Record. The letter shall describe:
 - (a) the area covered by the plan;
 - (b) the duration of the plan;
 - (c) the date of the public notification;
 - (d) the nature of the comments received from the public and the government agencies; and
 - (e) the proponent's responses to the comments received.

This shall be submitted when the final solicitation under Condition 1 is commenced.

6. The Ministry of Natural Resources shall provide the Director of the Environmental Assessment Branch with a list of those plans scheduled for approval during the period of this order, by January 31, 1983. The Director shall be notified of any additions to or deletions from the list at the time of such changes.
7. Where the carrying out of the undertaking requires that some activity, for which an Environmental Assessment has been done and an approval to proceed received, be conducted, that activity shall be carried out in accordance with the Environmental Assessment and approval to proceed.
8. This order expires on the earlier date of June 30, 1983 or the granting of an approval under

the Act for the forest management undertaking. O. Reg. 13/83.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 14/83.
Exemption—Ministry of Government Services—MGS-52.
Made—December 22nd, 1982.
Approved—December 22nd, 1982.
Filed—January 6th, 1983.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-52

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of developing and implementing the special-lease projects for the provision of accommodations projects described in the conditions, by the Ministry of Government Services,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Government Services that if the undertaking is subject to the application of the Act, the following damage or interference with the persons and property indicated will occur:

- A. The Ministries of Transportation and Communications, Health, and Community and Social Services will be interfered with, because they urgently require the undertaking to overcome existing inadequate facilities which severely hamper effective and efficient program delivery and the Ministry of Government Services has been unable to prepare environmental assessments in sufficient time to meet the requirements of the other three Ministries because the Ministry of Government Services has been preparing a class environmental assessment for this type of activity; and
- B. The public will be interfered with and damaged because the level of service available from the Ministry of Government Services' Client Ministries, the efficiency with which it is effected and the access to that service is diminished by the inadequacies of the existing accommodations.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Minister of Government Services has assured me that the undertaking will not have any significant adverse effect on the environment, based in part, upon the fact that adequate municipal services exist or can be made available at the sites to accommodate the three developments and, that zoning at the sites will permit the contemplated uses.

This exemption is subject to the following terms and conditions:

1. This exemption order only applies with respect to the following three projects:

(a) Ministry of Transportation and Communications proposed Driver Examination Centre, Industrial Parkway and Scanlon Court, Aurora, Ministry of Government Services' Project No. TC-L-6885;

(b) Ministry of Health proposed Ambulance Station, Queensway-Carleton Hospital, Ottawa, Ministry of Government Services' Project No. HEL-6483;

(c) Ministry of Community and Social Services proposed Northeast Adult Local Office, 1911 Eglinton Avenue East, Toronto, Ministry of Government Services' Project No. CML-6867.
2. This exemption order does not apply with respect to any project for which the proposed supplier of the project and the Crown have not entered into a contract by June 30, 1983, for the carrying out of the project.
3. Where an activity, which otherwise would be exempt under this order, is being carried out in connection with, or is part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the activity shall not be exempt under this order but shall be carried out in accordance with the approval to proceed.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 15/83.

Exemption—City of Toronto—TOR-3.

Made—December 22nd, 1982.

Approved—December 22nd, 1982.

Filed—January 6th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—CITY OF TORONTO—TOR-3

Having received a request from the Corporation of the City of Toronto that an undertaking, namely:

The activity of acquiring property, namely 201 Yonge Street, 170 Victoria Street, 220 Victoria Street and 10 Shuter Street in the City of Toronto,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Corporation of the City of Toronto (the "City of Toronto") that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The City of Toronto and the public will be damaged by the unnecessary expense in preparing an environmental assessment of an undertaking, the acquisition of property, which will have no significant adverse effects on the environment.

B. The City of Toronto will be interfered with by not being able to acquire the property at this time as part of a negotiated settlement respecting the Eaton Centre. The City of Toronto may also be damaged if the property is conveyed to another party.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The effects on the environment of the proposed activity, the acquisition of property, would appear to be insignificant and to be generally positive in nature, and it would appear that no useful purpose would be served by requiring the submission of an environmental assessment because the benefits of requiring an assessment do not

appear to outweigh the damage that would be done to the City of Toronto and to the public if an environmental assessment were required to be submitted.

B. The proponent advises that acquisition of the property by the City of Toronto is an important factor in a negotiated settlement respecting the Eaton Centre.

This exemption is subject to the following terms and conditions:

1. The acquisition of the properties by the City of Toronto shall not be used as reason or argument for the siting of any facilities which are subject to the Act.
2. This order expires on December 31, 1985. O. Reg. 15/83.

Exemption—Ministry of Transportation and Communications—MTC-50.

Made—December 22nd, 1982.

Approved—December 22nd, 1982.

Filed—January 6th, 1983.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-50

Having received a request from the Ministry of Transportation and Communications that an undertaking, namely:

The activity of carrying out the design, construction, operation and maintenance of Highway 403 from Horner Creek in Burford Township, County of Brant, westerly to Highway 401,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Ministry of Transportation and Communications will be interfered with and

damaged by the undue delay and expense resulting from the application of the Act to projects that were well advanced prior to the Act being proclaimed in force; and

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The designation of the highway route and the acquisition of land has been exempted by Order-in-Council No. 2487/80.
- B. The Ministry of Transportation and Communications has submitted a report on the design and construction phases for part of the undertaking and will submit another report on the same matters for the remaining portion of the undertaking.
- C. An active public participation program carried out for the undertaking continues to indicate a strong public desire for prompt completion of these final sections of Highway 403.
- D. The protection, conservation and wise management of the environment will be sufficiently provided for by the detailed environmental design and construction techniques employed by the Ministry of Transportation and Communications as part of its policy, and by conditions of approval.

This exemption is subject to the following terms and conditions:

- 1. The Ministry of Transportation and Communications shall make available to affected parties, Government Ministries and agencies, well in advance of construction of the undertaking, an Environmental Assessment Report covering the design, construction, operation and maintenance phases of the final section of Highway 403 from Highway 53 westerly to Highway 401. The Ministry of Transportation and Communications will carry out this portion of the undertaking with due regard for matters relating to the natural environment and will work closely with affected agencies and individuals in the consideration of their concerns.
- 2. In respect of the portion of the undertaking from Horner Creek westerly to Highway 53 Interchange, the Ministry of Transportation and Communications will do the following:

- (i) Except as provided by the subsequent conditions, the Ministry of Transportation and Communications shall comply with the recommendations as set forth in its Environmental Assessment Report dated August 20/82 prepared for the portion of the undertaking from Horner Creek westerly to No. 53 Interchange.
 - (ii) The final design for the Horner Creek crossing will be developed by the Ministry of Transportation and Communications in consultation with and to the satisfaction of the staff at the Grand River Conservation Authority.
 - (iii) The Ministry of Transportation and Communications will develop a program, in consultation with and to the satisfaction of the staff at the West-Central and Southwestern Regional Offices of the Ministry of the Environment, for monitoring potential effects on water quality and quantity for wells, as listed in Appendix 6 of the Environmental Assessment Report, including any required corrective action.
 - (iv) Safeguards necessary to minimize sedimentation in Horner Creek during construction and operation will be incorporated into proposed contract specifications and drawings to the satisfaction of the staff of the West-Central Regional Office of the Ministry of the Environment.
 - (v) The Ministry of Transportation and Communications will consult with the West-Central Regional Office of the Ministry of the Environment as to the method proposed by the contractor for the water crossing of Horner Creek to ensure that the purposes of the safeguards required by sub-condition (iv) are satisfied and notify the West-Central Regional Office at least 72 hours before the proposed start of construction at the water crossing to permit on site inspection.
3. When the carrying out of the undertaking requires some activity, for which an Environmental Assessment has been done and an approval to proceed received or an exemption granted, be conducted, that activity shall be carried out in accordance with the Environmental Assessment and approval to proceed or the condition to exemption whichever is applicable as well as the provisions of conditions 1 and 2.

POLICY:

Applications for operating authority should include references to weight, size or distance in metric units. Applications in imperial terms will be converted to metric and advertised accordingly.

For purposes of conversion the Board will refer to the 'Master Guide for the Conversion of Tariffs' developed by the Canadian Freight Association.

AMENDING CONTROL ORDER

A Division of Q.N.S. Paper Company
Limited
Allanburg Road
Thorold, Ontario
Attention: Mr. J. E. Houghton
President and Chief Operating
Officer

On August 2nd, 1979 you were served with an Amending Control order dated July 31st, 1979 referring to the control of contaminated effluent from your paper mill operation located in the City of Thorold.

The reasons for further amendments to this Amending Control Order are that by letter dated August 9, 1982, your company outlined the delay caused by strikes in installing the new No. 7 paper machine. You requested an extra six months to condition your effluent treatment plant to the wastewater from this machine.

Therefore, pursuant to the powers vested in me by Section 115 of the *Environmental Protection Act*, I hereby order that the said Amending Control Order be amended as follows:

1. On or before June 30th, 1983, reduce the level of BOD₅ in your total mill effluent to 20 tons per day.
2. On or before June 30th, 1983, reduce the level of suspended solids in your mill effluent to 7.5 tons per day net.
3. On or before June 30th, 1983, submit to the Director a report evaluating the mill's effluent quality as of that date.

4. Subject to 3. above, submit to the Director on or before June 30th, 1983, a report with sound engineering justification, as to why the sewer loading, as specified in 1. and 2. above, could not be reduced to 5.5 tons per day net for suspended solids and 15 tons per day BOD₅.

Pending completion of this Amending Control Order, the company shall take all necessary steps to minimize contamination of the natural environment from the discharge of effluent from the mill.

This Amending Control Order applies from the date it becomes enforceable pursuant to Section 114 (b) of the *Environmental Protection Act* until June 30th, 1982.

Under Section 122 of the *Environmental Protection Act*, you may require a hearing before the Environmental Appeal Board if, within 15 days after service upon you of a copy of this Order, you serve written notice upon the Environmental Appeal Board and the Director. Notice requiring a hearing should be served upon:

Treasurer's Sale of Lands for Arrears of Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CORPORATION OF THE COUNTY OF RENFREW

To Wit:

BY VIRTUE OF A WARRANT issued by the Warden under seal of the Corporation of the County of Renfrew, and to me directed, bearing the date of the 4th day of January, 1983, commanding me to levy upon and sell the lands mentioned in the following list for arrears of taxes and costs due thereon, I hereby give notice that unless such arrears of taxes and costs are sooner paid, I shall sell by public auction the said lands at the County Administration Building, in the City of Pembroke, on Saturday, May 14th, 1983 at 10.00 o'clock a.m. All of the said lands are patented.

If an adjourned sale is necessary it will be held at the same place and hour on Monday, May 30th, 1983.

ASSESSMENT ACT

O. Reg. 51/83.

Equalization of Assessments Made
Under Section 63 of the Assessment
Act.

Made—January 18th, 1983.

Filed—January 19th, 1983.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE UNDER SECTION 63 OF THE ASSESSMENT ACT

1. The equalization of assessments made under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 63 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1982 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1982 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1982 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1982 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1982 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1980, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.

3. The total assessment, including assessments made under section 32 or 33 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.

4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of the prescribed class of real property by reason of assessments made under section 32 or 33 of the Act. O. Reg. 51/83, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1982 for taxation in the year 1983. O. Reg. 51/83, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 51/83, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 51/83, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this clause; or

(b) as recreational land.

METROPOLITAN TORONTO COMMERCIAL ZONE

The Board published notice in THE ONTARIO GAZETTE of December 4, 1982 of a public meeting to address the subject of the extension of the boundaries of what is commonly known as the Metropolitan Toronto Area Commercial Zone.

The Notice of that public hearing read as follows:

"NOTICE OF PUBLIC MEETING

What is known as the "Metro "A" licence is an authority held by a large number of public commercial vehicle operators authorizing them to serve the Metropolitan Toronto "Commercial Zone". The description of this zone has been extended over time to accommodate the needs of shippers and carriers to serve an expanding Metropolitan Toronto commercial area. Although there are variations the present standard description is:

For the carriage of goods, between Metropolitan Toronto and the City of Mississauga, excluding the Toronto International Airport, that part of the Town of Vaughan bounded on the west by King's Highway No. 400, on the north by Sherwood Road (also known as Carrville Road) and on the east by Keele Street running south to Langstaff Road and by Dufferin Street running south from Langstaff Road, that part of the Town of Markham bounded on the north by Carrville Road (also known as 16th Avenue) and on the east by Kennedy Road, that portion of the City of Brampton bounded on the north by Peel Regional Road No. 16, the Town of Ajax and that part of the Town of Pickering on and south of King's Highway No. 7.

PROVIDED there be no service to or from that portion of the City of Brampton known as the Town of Brampton as at December 31st, 1973.

PROVIDED FURTHER that the licensee shall not transport any shipment exceeding 3,000 pounds in weight from the installations of Domtar Construction Materials Limited and/or Canada Brick a division of Martin-Marietta (Canada) Limited in the City of Mississauga, the Town of Vaughan or the City of Brampton unless previously authorized.

In the Greystone Cartage & Express Ltd., decision issued on June 23, 1982 the Board granted a geographic extension to a "Metro "A" area and indicated that the existing "Metro A" boundaries are due for revision, at least so far as they restrict the licence holder to serving a portion of certain municipalities.

The Board has now received a large number of similar applications to eliminate these split municipalities and has indicated to the applicants

that a policy meeting will be held to receive submissions on how such applications and the issues they raise may best be dealt with.

The terms of these applications are as follows:

"For the carriage of goods between:

1. Metropolitan Toronto;
2. the City of Mississauga;
3. the City of Brampton;
4. the Town of Markham;
5. the Town of Vaughan;
6. the Town of Ajax;
7. the Town of Pickering".

The purpose of this public meeting will be to develop a procedure for dealing with these applications and any similar ones that may be filed on an expeditious basis and to consider any other matters relevant to licensing within the Metro Toronto Commercial Zone including the advisability of any other changes in the "Metro A" language.

The Board proposes to issue a policy statement as a guide to present and future applicants after hearing submissions at this meeting.

The meeting will be held at 2.00 p.m., on Friday, January 7, 1983 at the Board's Chambers, Hearing Room No. 1, 151 Bloor Street West, 10th Floor, Toronto, Ontario.

Interested parties are invited to attend.

Parties unable to attend are encouraged to send their comments in writing to the Secretary of the Board".

The meeting was well attended and the Board received numerous helpful submissions all of which have been taken into consideration in the development of the following policy statement.

The Board would like to thank all those who attended for their time and interest.

019/83-01-31

POLICY STATEMENT

ITEM:

Metropolitan Toronto Commercial Zone

OBJECTIVE:

To State Board Policy

POLICY:

1. The Board will receive applications from carriers with authority to serve the present Metropolitan Toronto Commercial or Metro A area on a cartage or Class "A" basis in the following terms:

"For the carriage of goods between Metropolitan Toronto, the City of Mississauga, the City of Brampton, the Town of Markham, the Town of Vaughan, the Town of Ajax and the Town of Pickering".

2. Applications received prior to April 1, 1983 will be published and heard together.
3. A prehearing conference will be held to establish:
 1. the procedural format for the hearing, and

2. what issues, if any, are contentious and how they can best be addressed at the hearing.

Individual applicants will not be required to produce witnesses, other than company witnesses, except as may be determined at the prehearing conference.

Representatives of a number of carriers that presently serve the additional area applied for expressed concern that if the applications were granted they would be subject to a sudden and dramatic increase in competition. This was in their view unfair and the Board was asked whether it would consider alleviating any hardship that might be created by granting them additional authorities.

The exact nature and extent of the impact on existing carriers of the insertion of such a large number of additional competitors will depend on the particular resources, licensing and operating characteristics of each such carrier.

The Board must consider as a part of public necessity and convenience the ability of carriers under their existing operating licences to compete,

to be efficient and to remain viable. The Policy Statement effective 11th August 1979 issued pursuant to the *Public Commercial Vehicles Act*, R.S.O. 1980, Chapter 407, in its preamble speaks of the "need for an efficient and viable transportation industry" that will under Items 2 and 6 of the same Statement:

2. use capital, equipment and manpower resources efficiently
6. be characterized by effective competition both within the trucking industry and between the trucking industry and other modes;

It follows that those carriers who consider their present operations adversely affected by any applications that may be successful and who are satisfied that they can establish as part of the proof of public necessity and convenience that an additional operating authority will assist them in satisfying these policy guidelines are free to bring forward applications that will address such matters.
